AMA®-924-C  
ANTIMICROBIAL AGENT  
SOLUTION  
MATERIAL PRESERVATIVE

ACTIVE INGREDIENT:  
Dazomet .....24%  
Warning: Contains the allergen sulfites

REGISTRATION NO.: 32591  
PEST CONTROL PRODUCTS ACT

COMMERCIAL

DANGER

POISON  
CORROSIVE TO EYES

POTENTIAL SKIN SENSITIZER  
SKIN IRRITANT

READ THE LABEL BEFORE USING

NET CONTENTS: 25 L - BULK

KEMIRA CHEMICALS, INC.  
1000 Parkwood Circle, Suite 500  
Atlanta, GA 30339  
Telephone 678-819-4566

In case of Emergency contact CHEMTREC: 1-800-424-9300 or CANUTEC:  
613-996-6666

**DIRECTIONS FOR USE:**

DO NOT discharge effluent containing this product into sewer systems, lakes, streams, ponds, estuaries, oceans or other waters. DO NOT contaminate irrigation or drinking water supplies or aquatic habitats by cleaning of equipment or disposal of wastes.

Open dumping is prohibited.

*For use with closed loading and transfer systems only.*

*DO NOT discharge effluent containing this product or the biocide produced into lakes, streams, ponds, estuaries, oceans or other waters unless the effluent has been detoxified by suitable means.*

*DO NOT contaminate irrigation or drinking water supplies or aquatic habitats by cleaning of equipment or disposal of wastes.*

*As this product is not registered for the control of pests in aquatic systems, DO NOT use to control aquatic pests.*

**OILFIELD WATER TREATMENT, PROCESS WATERS AND WATER FLOODS: FOR CONTROL OF SLIME-FORMING AND/OR SPOILAGE BACTERIA:** Calculate the total volume of water to be treated. Using this volume, calculate the number of litres of AMA®-924-C needed to produce a concentration of 500 ppm AMA®-924-C. For example, 2.3 litres (0.5 Imperial gallons) of AMA®-924-C per 4546 litres (1000 Imp. gallons) of total volume will produce this dilution. Add 350 ppm of AMA®-924-C, each week or as needed to maintain bacterial control. This may be accomplished by adding 1.6 litres (0.35 Imp. Gal) of AMA®-924-C to each 4546 litres (1000 Imp gal) of total volume. Because of the wide variation in waters found in the oil fields, different concentrations of AMA®-924-C within the registered range of rates may be prescribed in a particular location.

**OIL AND GAS PIPELINE AND TANK MAINTENANCE:** For use in water bottoms in crude and refined hydrocarbon storage tanks, piping and transportation systems. Inject AMA®-924-C directly into the water bottom or pipeline. Apply AMA®-924-C to achieve 350-500 ppm in the aqueous phase. Dose will depend on the volume of crude or refined oil and the expected water fraction.

**PIPELINE / VESSEL HYDROTESTING:** For control of bacteria. Add 350-500 ppm of AMA®-924-C to the aqueous phase of hydrotest pipelines or vessels depending on water quality and length of time the equipment will remain idle.

**PRECAUTIONS**

KEEP OUT OF REACH OF CHILDREN

Fatal if inhaled. Do not breathe mist, spray or vapours. Harmful if swallowed. Harmful or fatal if absorbed through skin. Causes skin and mucous membrane irritation. DO NOT get on skin. Corrosive to the eye. DO NOT get in eyes. Potential skin sensitizer. Wear chemical resistant coveralls over long sleeved shirt and long pants, chemical resistant gloves, socks, chemical resistant footwear and a full-face NIOSH-approved respirator during mixing, loading, clean up, maintenance, repair and all other handling activities. Use with adequate ventilation.

Do not spray the product in open systems.

Keep container closed.

Wash thoroughly after handling.

Avoid contamination of food, feed or drinking water.

Laundry protective clothing before reuse.

**Handler Use Precautions:**

Wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove clothing immediately if pesticide comes in contact with skin through soaked clothing or spills. Then wash skin thoroughly and put on clean clothing. Wash contaminated clothing separately from other clothes before reuse.

Store personal protective equipment out of reach of children and pets.

Avoid touching 'clean' surfaces while wearing personal protective equipment (for example: door handles, counter tops), or thoroughly clean these surfaces afterwards with water and detergent.

Remove personal protective equipment immediately after handling this product. Remove personal protective equipment in a predetermined area separate from living or working areas.

*Fatal or Poisonous if swallowed or absorbed through the skin. DO NOT get on skin or on clothing. Harmful if inhaled. Avoid inhaling/breathing vapour or sprays. CORROSIVE to the eye and to skin. DO NOT get in eyes or on skin. Potential skin sensitizer.*

Wash the outside of the gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

Avoid touching eyes and face until you have washed your hands.

Never use the mouth to siphon product from containers or to blow out clogged lines, nozzles, etc.

Repair/replace torn or broken personal protective equipment.

Use hot water, heavy-duty liquid detergent, the highest water level setting, and the longest wash cycle. Keep and wash personal protective equipment separately from other laundry.

If heavily soiled, wash personal protective equipment two or three times. After washing, run the washing machine through a complete cycle with detergent. If possible, line-dry the clothing.

Discard clothing and other absorbent materials that have been drenched or heavily contaminated with this product. Do not reuse them.

**FIRST AID**

**If in Eyes:** Hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

**If on Skin or Clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice.

**If Inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice.

**If Swallowed:** Call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person.

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

**Toxicological information:** There is no specific antidote. Medical personnel should provide symptomatic or supportive treatment. Probable mucosal damage may contraindicate the use of gastric lavage.

#### **ENVIRONMENTAL PRECAUTIONS**

: Toxic to aquatic organisms.

#### **STORAGE**

To prevent contamination, store this product away from food or feed. Open dumping is prohibited. If plastic, do not reuse empty container.

#### **DISPOSAL**

1. Close Valve.
2. For disposal, this container is to be returned to point of purchase (distributor/dealer). It must be refilled by the distributor/dealer with the same product. Do not reuse this container for any other purpose.
3. Contact the distributor/dealer to arrange for the return of the container.
4. For information on disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill, and for clean-up of spills.

#### **NOTICE TO USER**

This pest control product is to be used only in accordance with the directions on the label. It is an offence under the *Pest Control Products Act* to use this product in a way that is inconsistent with the directions on the label.
