Wilson® WEED OUT® Lawn Weed Killer With Battery Sprayer provides control of dandelion, plantain (broadleaf and narrow-leaved), and ragweed and top growth control of fall hawkbit, hawkweed, orange hawkweed, cinquefoil, white clover and black medic in turf. Visible effects on weeds can be observed within 24 hours and weeds die in four to eight weeks.

This product can be directly applied to small patches and individual broadleaf weeds as a spot treatment. To maximize its effectiveness, this herbicide should be used in conjunction with a sound turf maintenance program. Avoid mowing the lawn until the effect of weed treatment is visible.

DIRECTIONS FOR USE:

Use trigger spray attachment enclosed. Use this product anytime weeds are actively growing. Wet the foliage using short bursts of spray. Avoid over applying to the point of runoff. Do not apply to drought-stressed grass or newly seeded lawns. Do not apply in very hot (over 30°C) or rainy weather, or if rainfall is forecast within the next 2-4 hours. Do not water for 2 hours after application. For more resistant weeds, re-apply after 4 to 6 weeks. This product will not prevent new weeds - **apply only when weeds are present**. Grass that is accidentally treated may temporarily turn brown but will recover.

<i>(Option 1)</i>	<i>(Option 2)</i>
<p>DIRECTIONS FOR USE OF BATTERY SPRAYER:</p> <p>EASY SET UP (5 illustrations)</p> <ol style="list-style-type: none"> a. Remove sprayer from holder. Gently pull tubing. b. Remove seal from top of cap. Remove plug from cap. c. Securely snap the plug on end of tubing into hole on cap. d. Remove plastic tab to activate batteries. e. Twist nozzle to adjust spray from CLOSE to SPRAY to STREAM. <p>HOW TO USE</p> <ol style="list-style-type: none"> A. Aim toward target weeds and away from people and pets. B. Secure sprayer upright in holder. 3. <i>Failure to adjust nozzle completely to CLOSE position and properly secure sprayer in holder may result in leakage and damage to property or injury to people or animals.</i> 	<p>HOW TO USE</p> <p>BEFORE USE/EASY SET UP (6 illustrations):</p> <ol style="list-style-type: none"> 1. Remove sprayer from holder and remove and discard plastic wrap. Gently pull hose tip to completely extend tubing. 2. Open the flip-top cap. 3. Place hose tip into opening of cap. Orient the finger tab opposite of hinge in order to insert. Snap connector into place. 4. Remove plastic tab to activate batteries. 5. Rotate finger tab of hose tip to “Open” position. 6. Twist sprayer nozzle from CLOSE (X) to either SPRAY or STREAM. Hold sprayer below the level of the container and prime by pumping trigger several times until product is dispensed. To spray, press trigger. To stop spraying, release the trigger. <p>AFTER USE:</p> <ol style="list-style-type: none"> 1. To store, turn sprayer nozzle to Close (X) position. 2. Rotate finger tab of hose tip to “Closed” position. 3. DO NOT disconnect hose. 4. Return sprayer to its slot. Hose can be pushed back into sprayer handle. 5. <i>Failure to adjust nozzle completely to</i>

CLOSE position and properly secure sprayer in holder may result in leakage and damage to property or injury to people or animals.

(Option 3)

INSTRUCTIONS - BATTERY SPRAY WAND:

EASY SET-UP:

1. Remove spray wand from holder. Remove wrap from coiled hose. Remove protective battery strip from handle.
2. Remove sticker and cap cover before inserting hose plug.
3. Connect hose to cap by inserting plug at end of coiled hose into hole on cap and push firmly until secure.

HOW TO USE:

- A. Open spray wand until fully extended. Adjust spray nozzle to desired setting.
- B. Slide ON/OFF switch to ON position.
- C. Aim toward target pests and away from people and pets.
- D. Squeeze trigger to dispense product. Sprayer may require a couple seconds to prime before product is released.

AFTER USE:

1. Slide ON/OFF switch to OFF position.
2. Do not unplug hose. Leave connected to cap.
3. Turn spray nozzle to the closed position.
4. Fold spray nozzle down against handle.
5. Return spray wand to holder.

Failure to adjust nozzle completely to closed position and properly secure sprayer in holder may result in leakage and damage to property or injury to people or animals.

[OPTIONAL TEXT IN BRACKETS]

[To replace batteries:

1. Slide battery compartment door to unlatch and open.
2. Remove used batteries and insert new AA batteries in correct positions as marked per diagram inside of battery compartment. Never insert the positive end where the negative end belongs and vice versa. Always use a complete set of new batteries of the same type when replacing batteries. *Never* mix alkaline, carbon-zinc or rechargeable batteries.
3. Securely close battery compartment door.]

Additional Operating Notes: •Do not submerge in water. •Before each use, inspect sprayer carefully. Make sure hose is flexible and not kinked, worn or cracked, and that all connections are tight. •When storing sprayer for prolonged periods remove batteries. NOTE: Trigger sprayer is to be used only for this product. *Always* follow manufacturer's recommendations for use and disposal of batteries.

PRECAUTIONS: Avoid activities that could result in skin contact with treated lawns or turf surfaces until residues have dried. Toxic to terrestrial and aquatic plants. Do not apply to desirable plants. Do not apply when winds are gusty.
