{ } Denotes verbiage not printed on market labeling

DIRECTIONS FOR USE: [See insert(s) inside box for usage directions.] [Keep packaging [leaflet] for future reference.]

**PRECAUTIONS:** KEEP OUT OF REACH OF CHILDREN AND PETS. Harmful if swallowed, inhaled, or absorbed through the skin. Avoid contact with skin, eyes or clothing. Avoid breathing vapor. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco or using the toilet. Only adults are permitted to replace the cartridge.

**ENVIRONMENTAL PRECAUTIONS:** This pesticide is highly toxic to aquatic organisms. Do not apply directly to water. Drift from treated areas may be hazardous to organisms in adjacent aquatic sites.

**FIRST AID: If Inhaled,** move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice. **If swallowed,** call a poison control centre or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give **any** liquid to the person. Do not give anything by mouth to an unconscious person. **If on skin or clothing,** take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice. **If in eyes,** hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

**TOXICOLOGICAL INFORMATION:** Contains petroleum distillates. Treat symptomatically. Vomiting may cause aspiration pneumonia.

**STORAGE: Repellent Unit:** DO NOT contaminate water, food or feed by storage. **Pesticide Storage:** Store in a cool, dry place out of reach of children. Keep container tightly closed. Store refills out of direct sunlight.

**DISPOSAL:** Wrap in newspaper and dispose with household garbage. DO NOT reuse the empty refill containers. Unused or partially used products should be disposed at provincially or municipally designated hazardous waste disposal sites. Never place unused product down any indoor or outdoor drain.

**NOTICE TO USER:** This pest control product is to be used only in accordance with the directions on the label. It is an offence under the Pest Control Products Act to use this product in a way that is inconsistent with the directions on the label.

## USER GUIDE

### Thermacell® Radius Zone Mosquito Repellent

DOMESTIC  
SOLUTION  
FOR OUTDOOR USE ONLY.  
Do not use indoors, in a tent or enclosed area

READ THE LABEL BEFORE USING

KEEP OUT OF REACH OF CHILDREN  
ACTIVE INGREDIENT: Metofluthrin..... 4.00%  
REG. NO. 33274 P.C.P. ACT

CAUTION

POISON

Thermacell Repellents, Inc  
32 Crosby Drive

Bedford, MA 01730 USA  
Telephone: 781-541-6900

**IMPORTANT:** READ ALL INSTRUCTIONS BEFORE USE

**ATTENTION:** This product is intended for adult use only. This product is not a toy.

[INSTRUCTIONS PERTAINING TO A RISK OF FIRE, ELECTRIC SHOCK OR INJURY TO PERSONS]

**IMPORTANT SAFETY INFORMATION. READ CAREFULLY BEFORE USE.**

**NOTICE:** This product contains a lithium ion battery which is subject to certain transport restrictions. Inspect the product's packaging prior to transport. Do not transport this product if the component housing the battery is damaged.

When using rechargeable battery operated products, basic precautions should always be taken. To reduce the risk of injury, close supervision is necessary when a product is used near children. KEEP OUT OF REACH OF CHILDREN DO NOT put fingers, hands, metal or other foreign objects in the product.

Do not remove the battery from the equipment housing. Do not store with battery completely discharged for extended periods of time. Batteries should be charged at least once every 3 months during storage. Battery should be discharged and charged after being stored more than a year to maintain optimal battery capacity. The battery should be stored at room temperature in a dry location and should not be placed, charged or stored in high-temperature locations. Exposure of the battery or device to fire or temperature above 130°C/265°F may cause explosion.

Only use with battery charger supplied in a properly functional electrical outlet. Charging should be performed at a temperature between 40°F and 110°F. Charging improperly or at temperatures outside of the specified range may damage the battery and increase the risk of fire. Recharge only with the USB charger supplied with the device (5V DC-1000 mA) or with a USB Listed/Certified Class 2 Power unit charger marked 5V DC-1000 mA. [DO NOT use the device during the battery charging process.]

2024-1463  
2024-05-24

If any leaks, odors, or deformities are noticed in the structure housing the battery, immediately discontinue use and dispose of safely.

Do not expose the device to water or otherwise allow the device to get wet. [Should a battery become ruptured, do not allow contact with water].

[Have servicing performed by a qualified repair person using only identical replacement parts] [to ensure that the safety of the product is maintained]. [Do not modify or attempt to repair the device.] [For service, contact Thermacell.]

USE ONLY Thermacell Refills. Thermacell will not be responsible for damage, injury or poor product performance caused by use of any other refills or unapproved replacement parts in this Thermacell device.

## SAVE THESE INSTRUCTIONS.

Welcome [to Thermacell]

1. [Get ready to experience] [You're ready to discover] a new way to repel mosquitoes. Thermacell products create a zone of protection from mosquitoes, without the use of [sprays or other topical products] [messy sprays or lotions].
2. Thermacell patented technology uses heat to continuously release repellent, providing hours of protection.
3. [3 m] Protection Zone
4. The Radius is an on-demand mosquito repeller. The rechargeable battery powers a heater that diffuses mosquito repellent from the repellent cartridge into the air. Turn it on and within 15 minutes you will be protected from mosquitoes in a 3 m area. When finished using it just turn it off. It's that easy. [No sprays to wash off and no candles to blow out.]

In the Box [Contains] [Included:]

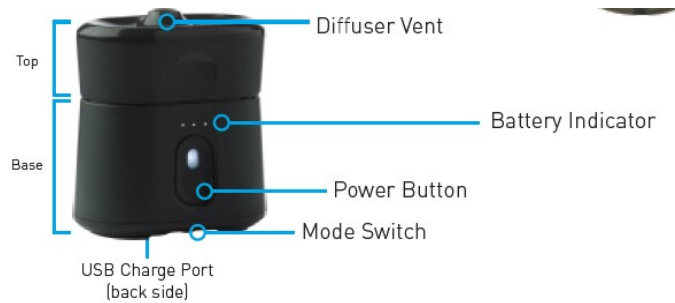

1. [#] Thermacell Radius Zone Mosquito Repellent

2024-05-24

{Use instructions; steps and sub-bullets used as appropriate; some bullets may be prefaced with “Tip:”}

**NOTE:** The device will get hot while in use. Always allow it to cool before replacing cartridges.

Let's get started.

### 1. Charge the Repeller

- a. Pull back the rubber cover on the charge port and insert the USB cable provided
- b. Plug the charger into a standard 120V wall receptacle
- c. Fully charge the repeller before the first use for best results.
- d. [Up to] # Hours [required] for full charge]. [Charging can take up to # Hours]
- e. [When charge complete, [#] lights will illuminate
- f. [#] Lights: [<] [>] [#] [+] Hours [Fully Charged]
- g. Blinking Light: [Orange light ] <30 Minutes [run time] [remains]
- h. Charging
- i. Fully Charged
- j. Low Battery (Less than 20 minutes)
- k. Battery too low to turn on  
{imagery will accompany to illustrate}

### 2. To insert or replace a [repellent] [refill][cartridge]

#### a. Important:

- a. Do not remove the cap until ready to use.
- b. Do not touch or remove the wick.
- c. Keep the cap for storage or travel.
- d. Always replace the cap on refill prior to transport or travel.
- e. Do not transport the device with refill installed.
- b. Open the repeller. If replacing a used cartridge, lift out old cartridge by the outside plastic to remove.
- c. Gently squeeze the refill cap [and lift upward to remove.] [Remove the cap from a repellent cartridge]
- d. [Insert the Repellent Cartridge into the repeller. Replace the repeller top] [taking care not to damage the repellent cartridge wick.]

[Place the refill into the base of the Radius and replace the repeller top.]

{Imagery will accompany to help explain}

### 3. Turn on

- a. Move the mode switch to UNLOCK mode
- b. Push [and hold] the power button [until illuminated]
- c. To turn off, press and hold the power button until the lights turn off.

2024-1463  
2024-05-24

- d. For use outdoors on patios, decks, unenclosed porches, walkways, around swimming pools and other outdoor areas where mosquito protection is desired. Do not use indoors, in a tent or an enclosed area. Do not cover. Keep repeller upright during use.
- e. Run for 15 minutes to completely establish the [protection] zone

#### Operating Modes

UNLOCK [icon] - In the UNLOCK position, the repeller is ready for use. Press and hold the POWER button for 5 seconds to activate/deactivate LOCK mode.

LOCK [icon] - LOCK MODE prevents the repeller from being turned on accidentally during transport or storage. If power button is pressed while in LOCK MODE the light will flash but not stay on.

#### AUTO-OFF [icon] [Timer mode]

The repeller features an auto-off timer option, giving you one less thing to remember to turn off. When using the repeller in this mode, the repeller will turn off after 120 minutes [2 hours] of use. To reset the timer, simply double-click the power button to restart.

#### Control Panel

Your Radius will communicate different statuses through the control panel.

- Repellent Cartridge Status - Don't worry about running out of repellent, the indicator will let you know when you have less than 2 hours left.
    - Flashing red Repellent Cartridge indicator: No Repellent Cartridge present and unit will not turn on
    - Solid red Repellent Cartridge indicator: Less than 2 hours of repellent left
  - Timer - A built in 2 hour timer so you'll never forget to turn it off. The timer icon will illuminate when the timer mode is activated. The repeller will turn off after 2 hours automatically. To enter/[exit] timer mode, press the power button 2X in quick succession.
  - ZoneCheck Indicator - A visual communication tool that lets you know the repeller status..
    - Chasing Pattern: Unit is warming up
    - Solid Illumination: Unit is up to temp / Actively releasing repellent
- If you do not see the ZoneCheck ring illuminated, you are not yet protected from mosquitoes.

{Imagery will accompany to help supplement ex}

#### 5. Place your device

- a. For outdoor use only
- b. The Radius is best placed in the center of the desired Zone of repellency
- c. If it is windy, place the repeller upwind of where you are sitting.
- d. Only operate with the vent facing up.
- e. Do not cover the repeller while in use.

#### 6. Care and Storage

- a. Occasionally debris or condensation may build up on your Radius device. Simply use a damp paper towel or rag to wipe away any build up.
- b. Do not expose the Radius device to extended periods of rain or submerge in water.

2024-1463  
2024-05-24

- c. Do not expose the Radius device to temperatures above 60°C (140°F).
- d. Store at room temperature in a dry environment when not in use.
- e. Do not store with battery completely discharged for extended periods of time. Batteries should be charged at least once every 3 months during storage.
- f. Remove and cap refill if storing for extended periods of time.

#### Useful Tips

1. For best results, place in the center of the area you want protected from mosquitoes
2. Allow 15 minutes for the full zone to be established.
3. For optimal protection in larger areas, use multiple repellents spaced 3 metres apart
4. Effectiveness can be impacted by wind and air movement. Place upwind on a windy day.
5. Avoid exposing open refills or device(s) to rain

#### Maintenance [storage] [travel] [and] [Care]

1. Condensation can build up on and around the top [vent] over time. Turn repeller off and wipe with a damp [dry] cloth. Do not use chemicals or abrasives.
2. [Replace cap [on Refill] and] store in a dry place when not using the repeller.
3. Partially used [Refills] should be [removed from the device and] disposed of prior to storing for extended periods of time.

#### Troubleshooting

1. If the repeller won't turn on [start]:
  - a. Confirm a refill is inserted. The repeller will not operate without a refill.
  - b. Confirm the top of the repeller is placed on the base and fully closed. The repeller will not operate while separated.
  - c. Confirm the repeller is in UNLOCK or AUTO-OFF position. The repeller won't turn on while in LOCK MODE.
  - d. Confirm the battery is charged. The repeller will not turn on if battery is too low.
  - e. Confirm the battery contacts are clean and free of debris or damage.

**PRECAUTIONS:** KEEP OUT OF REACH OF CHILDREN AND PETS. Harmful if swallowed, inhaled, or absorbed through the skin. Avoid contact with skin, eyes or clothing. Avoid breathing vapor. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco or using the toilet. Only adults are permitted to replace the cartridge.

**ENVIRONMENTAL PRECAUTIONS:** This pesticide is highly toxic to aquatic organisms. Do not apply directly to water. Drift from treated areas may be hazardous to organisms in adjacent aquatic sites.

**FIRST AID:** **If Inhaled,** move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice. **If swallowed,** call a poison control centre or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give **any** liquid to the person. Do not give anything by mouth to an unconscious person. **If on skin or clothing,** take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice. **If in eyes,** hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

**TOXICOLOGICAL INFORMATION:** Contains petroleum distillates. Treat symptomatically. Vomiting may cause aspiration pneumonia.

**STORAGE: Repellent Unit:** DO NOT contaminate water, food or feed by storage. **Pesticide Storage:** Store in a cool, dry place out of reach of children. Keep container tightly closed. Store refills out of direct sunlight.

2024-1463  
2024-05-24

**DISPOSAL:** Wrap in newspaper and dispose with household garbage. DO NOT reuse the empty refill containers. Unused or partially used products should be disposed at provincially or municipally designated hazardous waste disposal sites. Never place unused product down any indoor or outdoor drain.

**NOTICE TO USER:** This pest control product is to be used only in accordance with the directions on the label. It is an offence under the Pest Control Products Act to use this product in a way that is inconsistent with the directions on the label.

**DIRECTIONS FOR USE:** Please refer to the instructions [user guide] that came with your device for complete directions for use.

**PRECAUTIONS:** KEEP OUT OF REACH OF CHILDREN AND PETS. Harmful if swallowed, inhaled, or absorbed through the skin. Avoid contact with skin, eyes or clothing. Avoid breathing vapor. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco or using the toilet. Only adults are permitted to replace the cartridge.

**ENVIRONMENTAL PRECAUTIONS:** This pesticide is highly toxic to aquatic organisms. Do not apply directly to water. Drift from treated areas may be hazardous to organisms in adjacent aquatic sites.

**FIRST AID: If Inhaled,** move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice. **If swallowed,** call a poison control centre or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give **any** liquid to the person. Do not give anything by mouth to an unconscious person. **If on skin or clothing,** take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice. **If in eyes,** hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

**TOXICOLOGICAL INFORMATION:** Contains petroleum distillates. Treat symptomatically. Vomiting may cause aspiration pneumonia.

**STORAGE: Repellent Unit:** DO NOT contaminate water, food or feed by storage. **Pesticide Storage:** Store in a cool, dry place out of reach of children. Keep container tightly closed. Store refills out of direct sunlight.

**DISPOSAL:** Wrap in newspaper and dispose with household garbage. DO NOT reuse the empty refill containers. Unused or partially used products should be disposed at provincially or municipally designated hazardous waste disposal sites. Never place unused product down any indoor or outdoor drain.

**NOTICE TO USER:** This pest control product is to be used only in accordance with the directions on the label. It is an offence under the Pest Control Products Act to use this product in a way that is inconsistent with the directions on the label.
