DIRECTIONS FOR USE

Apply an even layer of PERFECT ROOM PLUS DUST onto surface to be treated. Apply as a crack and crevice, spot or void treatment. In living areas, make applications in such a manner as to avoid deposits on exposed surfaces or introducing the material into the air.

Bed Bugs:

Take beds apart. Apply to cracks, crevices and voids associated with the mattresses, boxsprings, bedframe and other furniture where these insects may harbour, travel, breed or enter the room. Treat mattresses, especially around seams, tufts, folds and edges. Cover with clean bedding before using. Bed bugs may also harbour in areas of the room away from the bed or furniture. Apply into wall voids, behind wall hangings, floor molding, window casings, carpet edge, and other cracks and crevices or voids. Apply directly to the bed bug if possible. Repeat as required.

INDOOR USE: Apply an even layer to the areas where these pests are found or may hide such as cracks and crevices, behind and beneath stoves, refrigerators, sinks, cabinets, baseboards, garbage cans, around pipes and drains, window frames and in attics and basements. Hit insects directly where possible. Repeat treatment as necessary.

OUTDOOR USE: Apply an even layer to the areas where these pests are found or may hide including patios, windows, door frames and sills, outside of entrance ways, around foundations, and along ant trails. Repeat treatment as necessary.

PRECAUTIONS:

KEEP OUT OF REACH OF CHILDREN. Avoid breathing dust. Avoid contact with eyes, skin or clothing.

Wash hands after application and clean-up activities.

Use adequate ventilation when handling, during application, and clean-up activities.

Do not apply in the immediate vicinity of people or pets.

Do not use as a general space spray

STORAGE:

To prevent contamination store this product away from food or feed.

DISPOSAL:

DO NOT reuse the empty containers. Dispose in household garbage. Unused or partially used products should be disposed at provincially or municipally designated hazardous waste disposal sites..

FIRST AID

If swallowed: Call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person.

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice.

If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice.

If in eyes: Hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

Take the container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION

Treat symptomatically.

NOTICE TO USER

This pest control product is to be used only in accordance with the directions on the label. It is an offence under the *Pest Control Products Act* to use this product in a way is inconsistent with the directions on the label. The user assumes the risk to persons or property that arises from any such use of this product.
