RETAIN PACKAGING FOR FUTURE REFERENCE

DIRECTIONS FOR USE:

Alleviates the annoyance from mosquitoes by repelling and killing mosquitoes and reducing the number of bites in an area up to 4.5 metres from the product (as large as an average-size deck or patio) for up to four hours. Effect is **not** immediate. For best results, allow 30 minutes for product to take effect. This product works well in outdoor areas where there is minimal air movement, such as decks, porches, patios and yards. Use one lantern per each 21.0 square metres (an area 4.5 x 4.5 metres or 15' x 15'). Use more lanterns in larger areas, spacing them to ensure adequate coverage. Wind, heat or humidity may affect the performance of this product. Lantern and mat effectiveness may be diminished if exposed to rain. Make sure that candleholder has been secured by turning it clockwise until it clicks, and that lantern globe is securely on lantern base. [Lantern globe will click into place.] Place lantern on a level stable surface or hang from bail on a stable garden hook. Lantern provides light as it repels and kills mosquitoes.

1. Remove lantern from base by squeezing latch tabs on lantern bottom and pulling out lantern top.
2. Remove bag from inside lantern and take out contents: [product name] repellent mat, [product name] candle, and candleholder.
3. Take [product name] repellent mat out of wrapper and insert under grill on lantern top.
4. Place [product name] candle into candleholder with wick upright.
5. While holding lantern base upright, insert [product name] candle and candle holder up through bottom and turn right [clockwise] in direction of arrow [see picture] [as shown in picture] until candle holder clicks into place. **Make sure candleholder clicks into place.**
6. Set lantern base down on a level surface and light candle.
7. Replace lantern on the base. **Be sure to push down on lantern until it clicks [into base].**
8. When finished using lantern, extinguish [product name] candle by blowing into grill top.

To Replace Candle [and] [or] [/] Repellent Mat

Replace [product name] candle and [product name] repellent mat only when lantern is cool and not in use. Remove candleholder from base of lantern by turning [left] [counterclockwise]. Discard used [product name] candle. Insert new [product name] candle. Use only [product name] candles. Other candles may not provide correct amount of heat to release repellent optimally, reducing effectiveness. To replace a used [product name] repellent mat, push the used repellent mat out by inserting a new mat.

PRECAUTIONS:

KEEP OUT OF REACH OF CHILDREN AND PETS. Harmful if inhaled. Avoid breathing vapours. For outdoor use only to kill and repel mosquitoes. Do not use indoors, in tents or any enclosed area. Do not touch the grill while the appliance is in use. The grill is hot while in use. Do not insert anything other than the mat into the appliance [grill]. Place appliance on a flat, stable surface with the grill facing upward. Do not cover with any material while in use. Clean with a damp cloth only when the device is cool and inactive. Store unused mats in the original packaging in a cool, dry place inaccessible to children and pets. Store appliance and candles in a cool, dry place away from sources of heat. Harmful or fatal if swallowed. May be harmful if absorbed through skin. Avoid contact with skin and clothing. Wash hands with soap and water after use. Cover exposed food. Seller will not be held responsible for damage, injury or poor performance caused by use of other candles or repellent mats.

ENVIRONMENTAL PRECAUTIONS

Toxic to aquatic organisms.

DO NOT contaminate irrigation or drinking water supplies or aquatic habitats by disposal of wastes.

FIRST AID:

If swallowed: call a poison control centre or doctor immediately for treatment advice. Have a person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person.

If Inhaled: move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice.

If on skin or clothing: take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice.

If in eyes: hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION:

Treat symptomatically.

STORAGE:

To prevent contamination, store this product away from food or feed.

DISPOSAL:

DO NOT reuse empty packaging. Wrap the used mats and dispose in household trash.. Unused or partially used products should be disposed at provincially or municipally designated hazardous waste disposal sites.

NOTICE TO USER: This pest control product is to be used only in accordance with the directions on the label. It is an offence under the Pest Control Products Act to use this product in a way that is inconsistent with the directions on the label.
