PRECAUTIONS

- KEEP OUT OF REACH OF CHILDREN.
- Strong oxidizing agent. May cause fire or explosion if contaminated.
- Dangerous gas formed when mixed with acid.
- Do not mix with any other chemical.
- Avoid contact with skin and eyes.
- It is recommended to wear rubber gloves when handling this product.
- Harmful if swallowed.
- Keep container closed and store in a cool, dry location.

DISPOSAL: Do not re-use empty container. Wrap and dispose of empty container with household garbage. For information on disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill, and for clean-up of spills.

FIRST AID: IF SWALLOWED, call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person.

IF ON SKIN OR CLOTHING, take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice. **IF IN EYES,** hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Treat symptomatically.

DIRECTIONS FOR USE

WARNING: Direct tablet contact may cause bleaching of spa surfaces. Automatic feeding devices employing these tablets must be totally free from traces of other spa sanitizers to avoid the probability of an explosion. Maintain recommended daily levels as determined by testing kit.

Free available chlorine: 3.0-5.0 ppm
pH 7.2-7.8

Total alkalinity: 100-120 ppm
Calcium hardness: 150-200 ppm

For chlorination, PoolSuppliesCANADA.CA Spa - SPA TABS should be added to an automatic chlorinator, floating chlorine feeder or spa skimmer to maintain the proper chlorine residual. Superchlorinate a freshly filled spa by adding 20 g of PoolSuppliesCANADA.CA Spa - SPA TABS per 1000 L of spa water. Maintain water circulation at least 1 hour before using. Repeat superchlorination procedure after each use period. Maintain proper chlorine residual by adding 10 g of PoolSuppliesCANADA.CA Spa - SPA TABS per 1000 L of spa water, daily or as needed. Persistent foam formation, turbid, or malodorous water are indicators of inadequate sanitizer levels. To correct such conditions, superchlorinate spa water by adding 30 g of PoolSuppliesCANADA.CA Spa - SPA TABS per 1000 L of spa water. Maintain circulation at least 1 hour and wait four hours before using.

PoolSuppliesCANADA.CA Spa - SPA TABS contain stabilizer (cyanuric acid) which will accumulate in spa water. Keep stabilizer within 30 - 100 ppm range by dilution with fresh water. For proper sanitation, spa must be completely drained periodically. The number of days between COMPLETE SPA DRAINAGE is equal to the volume of spa water in litres, divided by 10 times the maximum number of daily spa users. Refill spa with water and repeat DIRECTIONS FOR USE. Maximum spa water usage temperature is 40°C. Duration in spa water at 40°C should not exceed 15 minutes.
