ACTIVE INGREDIENT: Imidacloprid 9.1% and Pyriproxyfen 0.46%

REG. NO. 31517 P.C.P. ACT

Contents: One to six 0.23 mL Tubes

Elanco Canada Limited  
1919 Minnesota Court, Suite 401  
Mississauga, Ontario L5N 0C9  
1-800-265-5475

42 Advantage II kitten kills 98-100% of the existing fleas on cats within 1 day after  
43 treatment.  
44 Protection against further flea infestation can last up to 4 weeks.  
45 Retreatment at monthly intervals is required if re-infestation is continuous or if flea  
46 control is desired. Fleas, eggs, and larvae are killed following contact with skin debris  
47 from an Advantage II kitten treated pet. Advantage II kitten provides multi-stage flea  
48 control effectively breaking all flea life-cycle stages for quick and lasting control of flea  
49 populations. Do not shampoo or immerse the animal in water immediately after  
50 treatment. The animal can be shampooed, immersed in water or exposed to rain 3 days  
51 after treatment. Advantage II kitten retains its ovicidal and larvicidal efficacy up to 4  
52 weeks following a shampoo treatment, swimming or exposure to rain. The adulticidal  
53 effect may be shortened by repeated shampooing, water immersion or exposure to rain.  
54 Reapplication may be required after such activities. The successive feeding activity of  
55 fleas on pets may elicit a hypersensitivity skin disorder known as flea allergy dermatitis  
56 (FAD). Treatment of pets with Advantage II kitten rapidly kills fleas and may reduce the  
57 incidence of this condition.  
58 For effective flea control, treatment of the pet should be combined with sanitation of any  
59 area used by the pet. Vacuum floors, carpets and furniture (discard vacuum bag after  
60 use) and wash the pet's bedding, living quarters and surrounding areas. If pest  
61 problems persist, an insecticidal premise treatment may be required. A veterinarian  
62 should be consulted when pest infestation continues to be a problem on the pet.

63  
64 **PRECAUTIONS:**

65  
66 **HUMANS:** KEEP OUT OF THE REACH OF CHILDREN. Harmful if swallowed. Causes  
67 eye irritation. DO NOT get in eyes. Avoid contact with skin or clothing. Wear rubber  
68 gloves during application of this product. After handling or applying, wash hands (or any  
69 other skin that came in contact with the product), with soap and water. Avoid contact  
70 with pets until dry.

71  
72 **PETS:** Do not use on animals under 8 weeks of age. Care should be taken to prevent  
73 exposure of other pets who may be in close physical contact with the treated animal.  
74 Sensitivities may occur after using ANY pesticide product for pets. Smaller animals are  
75 more likely to experience an adverse reaction. Observe carefully. If signs persist, or  
76 become more severe, consult a veterinarian immediately.

77  
78  
79  
80  

Side Effects: Monitor your cat after application. Side effects may include: skin irritation such as scratching or hair loss at the application site, or changes in behaviour such as agitation or lethargy. Gastrointestinal effects such as drooling, vomiting or loss of appetite may also occur. If these or other side effects occur, consult your veterinarian or Elanco at 1-800-265-5475.
--

81 FIRST AID:

82

83 HUMANS: IF IN EYES, hold eye open and rinse slowly and gently with water for 15–20  
84 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue  
85 rinsing eye. Call a poison control centre or doctor for treatment advice.

86 IF SWALLOWED, call a poison control centre or doctor immediately for treatment  
87 advice. Have person sip a glass of water if able to swallow. Do not induce vomiting  
88 unless told to do so by a poison control centre or doctor. Do not give anything by mouth  
89 to an unconscious person. IF ON SKIN OR CLOTHING, take off contaminated clothing.  
90 Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control  
91 centre or doctor for treatment advice.

92

93 PETS: If signs of sensitivity occur, bathe the pet with mild soap and rinse with large  
94 amounts of water. If signs continue, consult a veterinarian immediately.

95 Take container, label or product name and Pest Control Product Registration Number  
96 with you when seeking medical or veterinary attention.

97

98 TOXICOLOGICAL INFORMATION: Treat the patient symptomatically.

99

100 STORAGE: Store container at room temperature.

101

102 DISPOSAL: Wrap empty tube and cap in newspaper and dispose in household  
103 garbage.

104

105 DIRECTIONS FOR USE:

106 This product contains imidacloprid and pyriproxyfen. Do not apply another pest control  
107 product such as a shampoo, collar, or powder that contains imidacloprid or pyriproxyfen  
108 to the treated animal after applying Advantage II Kitten.

109

110 Do NOT administer by mouth.

111

112 Use only on cats 8 weeks of age and older weighing 2.3 kg or less. Do not use on cats  
113 under 8 weeks of age.

114

115 This product is packaged in single dosage tubes. This package contains one to six  
116 monthly 0.23 mL dosages. Do not apply a dosage higher than one 0.23 mL tube at one  
117 time. Treat your cat monthly in the manner described below.

- 118 1. Use only on kittens and cats 8 weeks of age and older weighing 2.3 kg or less.  
119 Do not use on cats under 8 weeks of age. Do not use on other animals.
- 120 2. Remove one applicator from the package.
- 121 3. Hold applicator tube in upright position. Pull cap off tube.
- 122 4. Turn cap around and place other end of cap back on tube.
- 123 5. Twist cap to break seal, then remove cap from tube.

2022-0231

2022-01-31

- 124 6. Part the hair on the neck at the base of the skull until the skin is visible. Place the  
125 tip of the tube on the skin and squeeze the tube to completely empty the contents  
126 directly on the skin. Do not get this product in your pet's eyes or mouth. The  
127 product is bitter tasting and salivation may occur for a short time if the cat licks  
128 the product immediately after treatment. Treatment at the base of the skull will  
129 minimize the opportunity for the cat to lick the product.
- 130 7. Discard the empty tube as described in "DISPOSAL".

131

132 Consult a veterinarian before using on sick, aged, pregnant or nursing animals or  
133 animals receiving drug or other pesticide treatment. A veterinarian should be consulted  
134 when pest infestation continues to be a problem on the pet.

135 Repeat every month for continual pest control in situations where there is an ongoing  
136 risk of pest infestation.

137

138 Until Advantage II kitten dries, keep pet off furniture and away from hardwood floors.

139
