DIRECTIONS:

Wilson Total WipeOut Max Grass & Weed Killer Concentrate is a non-selective herbicide. It controls most annual and perennial grasses, including lawn grasses and quackgrass, broadleaf weeds, such as chickweed, ragweed, knotweed, poison ivy, Canada thistle, milkweed, bindweed and brush, (i.e. virtually anything that is green and growing). It is absorbed by the leaves and moves throughout stem and roots to control the entire plant. Mature perennial weeds should be treated after seed heads, flowers or fruit appear. All plants are most easily controlled in the young, actively growing, seedling stage.

Wilson Total WipeOut Max Grass & Weed Killer Concentrate wilts and browns plants within 48 hours. Plants usually dry up within 7 to 14 days. There is no soil activity and no run off to affect nearby vegetation. To ensure that this product gets down to the roots, avoid tillage or disturbing the treated area for 7 – 10 days after treatment or as directed below. Make sure to contact only those plants that you want to kill as the spray will damage or kill any desirable plants it contacts. Do not spray in windy conditions. Heavy rainfall immediately after application may wash the chemical off the foliage and repeat treatment may be required. Do not apply if rainfall is forecast. Use a repeat application on any seedlings that re-grow from seeds. Glyphosate is not to be applied using hand-wicking or hand-daubing methods.

1 tablespoon = 15 mL 1 pace = 1 metre approx.

HOW TO USE: Mix 50 mL of this product in 1 L of clean water and apply over 20 m² (5 paces by 4 paces) of area. Ensure uniform and complete spray coverage but not to the point of runoff. Rinse sprayer thoroughly after each use. Mix only enough spray solution to treat intended area. Do not store spray mixture in sprayer for prolonged periods. Do not use hose-end sprays.

Undesirable vegetation control around buildings, lawn trimming/edging, patio weed control, vacant lots, storage & recreational areas, driveways, hard to mow areas and other similar areas: Apply to vigorously growing plants. Apply to annual weeds anytime after emergence. For perennial weeds apply after seed heads, flowers or berries appear.

Weed control around trees/shrubs/Ornamentals: Apply around base in a neat fashion. Avoid spray or drift contact with foliage, stems or green bark of desirable plants.

Lawn/garden renovation: For best results on lawns, skip one mowing prior to treatment. Allow at least 3 days after treatment before disturbing the soil and/or replanting.

Brush control: Apply after leaves are fully expanded. Treat trees and brush up to 1.5 m in height only; for taller trees and brush, cut back to 1.5 m or cut down and spray regrowth. Controls most brush such as poplar, alder, maple and raspberry.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. CAUSES EYE IRRITATION. HARMFUL IF SWALLOWED. Avoid contact with eyes or prolonged contact with skin. Do not allow others such as children and pets on treated areas during application or to re-enter treated areas until spray has dried. Wash immediately after using this product. Do not contaminate foodstuffs, seed or feed by storage or disposal.

FIRST AID: **If swallowed,** call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person. **If in eyes,** hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. **If on skin or clothing,** take off contaminated clothing. Rinse skin immediately with plenty of water for

15–20 minutes. Call a poison control centre or doctor for treatment advice. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Treat symptomatically.

STORAGE: Keep product in original container. Store in a cool, dry place away from food, seed and feed.

DISPOSAL: Do not reuse empty container. Rinse container and empty rinsings into sprayer. Dispose of empty container with household garbage.

For additional product information or in case of emergency, spills or fire, call 1-800-268-2806.
