Ramik[®] Ground Squirrel Bait

RODENTICIDE PELLETS

Weather resistant rodenticide for control of ground squirrels
(Columbian, Franklin's, thirteen-lined and Richardson's)

GUARANTEE: Diphacinone (2-Diphenylacetyl-1, 3-Indandione).....0.005%

WARNING, contains the allergens Wheat, Soy and Fish.
Contains Calcium Propionate at 1.0% as a preservative.

Only to be used by certified pest control operators, farmers and persons authorized in government-approved pest control program.

KEEP OUT OF REACH OF CHILDREN

FIRST AID

IF SWALLOWED: Call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

For all cases of human ingestion, immediately notify a physician or poison control centre. If pet or livestock poisoning is suspected, immediately contact a veterinarian. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

PRECAUTIONS

KEEP OUT OF REACH OF CHILDREN, PETS AND LIVESTOCK. May be harmful or fatal if swallowed or absorbed through the skin. Chemical-resistant gloves must be worn when handling product and when disposing of dead rodents, unconsumed bait and empty containers. Avoid contact with eyes, skin or clothing. Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Wash skin thoroughly with soap and water after handling. Wash contaminated clothing, separately from other laundry, with soap and hot water before reuse. **KEEP AWAY FROM FEED AND FOODSTUFFS.**

If swallowed, this material may reduce the clotting ability of the blood and cause bleeding.

All handlers must wear long-sleeved shirt and long pants, shoes plus socks, and chemical-resistant gloves when handling this product.

ENVIRONMENTAL HAZARDS

Keep out of lakes, streams or ponds.

The use of anticoagulant bait can present a significant hazard to predatory mammals and birds through secondary poisoning.

TOXICOLOGICAL INFORMATION

Vitamin K₁ in the form of intramuscular or subcutaneous injections, or by oral ingestion are suggested remedial treatments for anticoagulant poisoning. The severity of the case measured by establishing prolonged prothrombin times (P.T.) will determine appropriate therapy. Monitoring P.T. will indicate the necessity of repeated treatments.

DIRECTIONS FOR USE

FOR THE CONTROL OF: Ground squirrels (Columbian, Franklin's, thirteen-lined and Richardson's) outdoors around farm yards, grain fields, nurseries, residential areas, turf (ornamental, sports), vegetable gardens and under granaries.

Users should remove clothing immediately if pesticide gets inside. Then wash skin thoroughly and put on clean clothing.

GROUND SQUIRRELS:

Hand Baiting: Place 15 grains (200 pellets) of bait in each hole. Check the site after 48 hours and rebait all holes where the bait has been consumed or removed.

Bait Station Method: Establish bait stations every 30 to 60 metres. Bait stations should bear the product name, active ingredient, guarantee, registration number, "WARNING POISON", and the skull and crossbones symbol. Set 500 grams of bait per station. Check daily and maintain an uninterrupted supply for 3 weeks or until feeding has stopped.

USE LIMITATIONS

Bait stations (**tier 1**) used outdoors, above-ground, in locations accessible to children, pets and non-target wildlife must have the following characteristics: (1) be constructed of high-strength material (e.g., metal or injection moulded plastic) and resistant to destruction by children; (2) have an entrance designed so that children cannot reach the bait; (3) have an internal structure that prevents bait from being shaken loose; (4) have an access panel that fastens securely and locks (e.g., metal screw or padlock); (5) bear the product name, active ingredient, guarantee, registration number, "WARNING POISON", and the skull and crossbones symbol; (6) be resistant to destruction by non-target animals; (7) have an entrance designed so that non-target animals cannot reach the bait; and (8) be resistant to destruction or weakening by elements of typical non-catastrophic weather (such as, snow, rain, extremes of temperature and humidity, direct sunshine, etc.).

USE LIMITATIONS – GROUND SQUIRRELS- OTHER OUTDOOR AREAS*

Bait placed outdoors, above-ground in residential areas, public areas or any other sites that are or will be open to the public, or in locations accessible to pets or livestock, **MUST** be placed in tier 1 bait stations. The bait stations used in these sites **MUST** meet the characteristics described under **USE LIMITATIONS**.

*As specified under Directions for Use.

STORAGE

Store in a cool, dry place away from other chemicals and food or feed. Store product not in use, in original container, in a secure location inaccessible to children and non-target animals.

DISPOSAL

Do not reuse empty container. Dispose of unused or spoiled bait in accordance with local requirements. Follow provincial instructions for any required cleaning of the container prior to its disposal. Make the empty container unsuitable for further use. Dispose of the container in accordance with provincial requirements. For more information on the disposal of unused, unwanted product and the cleanup of spills, contact the Provincial Regulatory Agency or the Manufacturer.

RODENT DISPOSAL: Dispose of dead rodent in garbage or by burying.

NOTICE TO USER

This pest control product is to be used only in accordance with the directions on the label. It is an offence under the Pest Control Products Act to use this product in a way that is inconsistent with the directions on the label. The user assumes the risk to persons or property that arises from any such use of this product.
