WEATHER RESISTANT RODENTICIDE FOR CONTROL OF RATS AND MICE
INDOORS AND OUTDOORS

Only to be used by certified pest control operators, farmers and persons authorized in government-approved pest control programs.

KEEP OUT OF REACH OF CHILDREN

FIRST AID:

IF SWALLOWED: Call a poison control centre or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

For all cases of human ingestion, immediately notify a physician or poison control centre. If pet or livestock poisoning is suspected, immediately contact a veterinarian. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN, PETS AND LIVESTOCK. May be harmful or fatal if swallowed or absorbed through the skin. Chemical-resistant gloves must be worn when handling products and when disposing of dead rodents, unconsumed bait and empty containers. Avoid contact with eyes, skin or clothing. Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Wash skin thoroughly with soap and water after handling. Wash contaminated clothing, separately from other laundry, with soap and hot water before reuse. **KEEP AWAY FROM FEED AND FOODSTUFFS.** All handlers must wear long-sleeved shirt and long pants, shoes plus socks and chemical-resistant gloves when handling

this product. Users should remove clothing immediately if pesticide gets inside. Then wash skin thoroughly and put on clean clothing.

TOXICOLOGICAL INFORMATION: This product contains petroleum distillates. Vomiting may cause aspiration pneumonia. IF SWALLOWED by humans, pets, wildlife or domestic animals, this material may reduce the clotting ability of the blood and cause bleeding. Vitamin K1 in the form of intramuscular or subcutaneous injections, or by oral ingestion are suggested remedial treatments for anticoagulant poisoning. The severity of the case measured by establishing prolonged prothrombin times (P.T.) will determine appropriate therapy. Monitoring P.T. will indicate the necessity of repeated treatments.

DIRECTIONS FOR USE: For the control of Norway Rats, Roof Rats and House Mice indoors, and outdoors within 15 metres of buildings (home, industrial and agricultural buildings). Rodenticide bait can be placed in tamper-resistant bait stations along fence line of properties, outside of the 15-metre limit but within a 100 metres of buildings, if the station is securely fastened (e.g., nailed down) to the fence or the ground.

APPLICATION DIRECTIONS: Each Ramik® Bar consists of a 454g bar scored so that it can be broken into 16 equal 28g pieces.

RATS: Place 4 to 16 28g pieces of Ramik® Bars per bait station, at intervals of 4.5 to 9 metres per placement. Maintain an uninterrupted supply of fresh bait for at least 15 days or until signs of rat activity cease. **MICE:** Place 1 to 4 28g pieces of Ramik® Bar per bait station, at intervals of 2.5 to 3.5 metres per placement. Maintain an uninterrupted supply of fresh bait for at least 15 days or until signs of mouse activity cease.

STORAGE: Store in a cool, dry place away from other chemicals and food or feed. Store product not in use, in original container, in a secure location inaccessible to children and non-target animals.

DISPOSAL: Do not reuse empty container. Dispose of unused or spoiled bait in accordance with local requirements. Follow provincial instructions for any required cleaning of the container prior to its disposal. Dispose of the container in accordance with provincial requirements. For information on disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill, and for clean-up of spills.

RODENT DISPOSAL: Dispose of dead rodents in garbage or by burying.

NOTICE TO USER: This pest control product is to be used only in accordance with the directions on the label. It is an offence under the Pest Control Products Act to use this product in a way that is inconsistent with the directions on the label. The user assumes the risk to persons or property that arises from any such use of this product.
