DIRECTIONS FOR USE: Use only as directed on this label. Not for use inside dwellings.

For Control of Wasps, Hornets and Yellowjackets Nests: Spray nests in the early morning or early evening, when air temperature is cooler and most insects are in the nest and little activity is observed around the nest opening. Spray only if the air is still. Stand at a safe distance from the nest, not directly under it. Hold container at arms length, point the actuator at the nest and spray into the opening of the nest first. Then spray the rest of the nest until it is saturated. Treated insects may fall out of the nest and die. Insects returning to the nest after treatment will be killed. Wait 48 hours before removing the nest. Foliage of desirable plants that were contacted with spray should be hosed off.

PRECAUTIONS: Harmful if swallowed or absorbed through skin. Do not breathe vapours or spray mist. Causes moderate eye irritation. May irritate skin. Avoid contact with eyes, skin or clothing. Wash thoroughly with soap and water after handling. Do not contaminate food, food containers, utensils or food preparation areas. Toxic to fish and other aquatic invertebrates. Do not apply directly to water or contaminate water by cleaning equipment or disposal of waste. Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 50°C may cause bursting. Do not apply this product around equipment due to possibility of shock hazard.

FIRST AID: If in eyes, hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. **If inhaled,** move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice. **If swallowed,** call a poison control centre or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control centre or doctor. Have person sip a glass of water if able to swallow. Do not give anything by mouth to an unconscious person. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Contains petroleum distillate. Vomiting may cause aspiration pneumonia. Treat symptomatically.

DISPOSAL: Do not reuse empty container. When container is empty, press valve to release all remaining pressure. Do not puncture or incinerate. Container is recyclable where programs or facilities exist. Refer to local municipal hazardous waste program for disposal of unused product. If recycling is not available, wrap empty container and discard in household garbage.

STORAGE: Store in a cool dry area away from heat or open flame.

For additional product information or in case of emergency, spills or fire, call 1-800-268-2806.
