INTERCIDE(R) OBF-10 DIDP
BACTERIOSTATIC AND FUNGISTATIC ADDITIVE FOR VINYL COMPOUNDS

For use as a material preservative in non-food contact materials and products

SOLUTION
COMMERCIAL

ACTIVE INGREDIENT:
2-N-Octyl-4-isothiazolin-3-one 10.0%

REGISTRATION NO. 31196 PEST CONTROL PRODUCTS ACT

DANGER
POISON CORROSIVE
DANGER – CORROSIVE TO EYES
POTENTIAL SKIN SENSITIZER

NET CONTENTS

DRUM NO.
LOT NO.

READ THE LABEL BEFORE USING
KEEP OUT OF REACH OF CHILDREN

PRECAUTIONS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER CAUSES EYE AND SKIN BURNS

POTENTIAL SKIN SENSITIZER

MAY CAUSE ALLERGIC SKIN REACTION

HARMFUL IF INHALED HARMFUL IF SWALLOWED

Do not get in eyes, on skin or on clothing. Wear a long-sleeved shirt, long pants, chemical-resistant gloves, goggles or face shield and a NIOSH-approved organic vapour-removing cartridge with a prefilter approved for pesticides OR a NIOSH-approved canister approved for pesticides during mixing, loading, application, clean up, maintenance, and repair. A respirator is not required for mixers/loaders/applicators using a closed mixing/loading system. Avoid breathing vapor or mist. Keep container closed. Use with adequate ventilation. Do not take internally. Wash thoroughly after handling.

FIRST AID

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to mouth, if possible. Call a poison control centre or doctor for further treatment advice.

IF SWALLOWED: Call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION:

Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsions may be needed. Treat symptomatically.

STORAGE

This product is corrosive to mild steel. Do not store or transport in unlined metal containers. Do not contaminate with strong oxidizing or reducing agents. Do not contaminate water, food or feed by storage or disposal or cleaning of equipment. Pesticide wastes are acutely hazardous.

ENVIRONMENTAL HAZARDS

TOXIC to aquatic organisms. It is not to be used in circumstances that would cause or allow it to enter lakes, streams, ponds estuaries, oceans, or other waters in contravention of federal or provincial regulatory requirements. The requirements of applicable laws should be determined before using the product. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. Do not contaminate water by cleaning of equipment or disposal of waste. Apply this pesticide only as specified on this label.

DISPOSAL

1. Triple- or pressure-rinse the empty container. Add the rinsings to the treatment site.
2. Follow provincial instruction for any required additional cleaning of the container prior to its disposal.
3. Make the empty container unsuitable for further use.
4. Dispose of the container in accordance with provincial requirements.
5. For information on disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill, and for clean-up of spills.

DIRECTIONS FOR USE

A level of 1% of this product based on total weight of plastisol will give excellent control against bacteria and mold organisms. This level is recommended for shower curtains, wall coverings and similar items. For example, in a 1000 kg batch requiring 1.0% of this product per total weight, 10 kg of the plasticizer or polyol would be replaced with 10 kg of this product. It is important to remember that the cost of using this product is, therefore, calculated as the difference in cost between this product and the replaced plasticizer. This product should be added early in the blending operation to assure homogeneity. It is recommended that microbiological, chemical and physical testing be done to determine the optimum level of biological agent required for each compound. Polymer Additives, Inc. D/B/A Valtris Specialty Chemicals has such facilities to assist manufacturers in determining the optimum level.

DO NOT use for vinyl compounds for toys.

DO NOT contaminate irrigation or drinking water supplies or aquatic habitats by cleaning of equipment or disposal of wastes.

DO NOT discharge effluents containing this product into sewer systems, lakes, streams, ponds, estuaries, oceans, and other waters unless the effluent has been detoxified to suitable means.

NOTICE TO USER:

This pest control product is to be used only in accordance with the directions on this label. It is an offense under the *Pest Control Products Act* to use this product in a way that is inconsistent with the directions on the label.
