REPAK Q

FOR MANUFACTURING, FORMULATING OR REPACKAGING

Soluble Granules
Quick Dissolving

REGISTRATION NO. **32281**
PEST CONTROL PRODUCTS ACT

ACTIVE INGREDIENT: Available Chlorine, present as calcium hypochlorite.....68.63%

DANGER

Poison.

The pictograms for (i) DANGER CORROSIVE and (ii) Warning –

CORROSIVE TO EYES AND SKIN
POISON

READ THE LABEL BEFORE USING

Westlake Chemicals & Vinyls LLC.
2801 Post Oak Blvd.
Suite 600
Houston Texas 77056
Made in U.S.A.
General inquiries: 304-455-6882

Net Contents 192.8 Kg / 425 lbs.

EMERGENCY TELEPHONE NUMBER – 304-455-6882

FIRST AID

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice.

IF SWALLOWED: Call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person.

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION

Treat symptomatically.

NOTICE TO USER – This pest control product is to be used only in accordance with the directions on the label. It is an offence under the *Pest Control Products Act* to use this product in a way that is inconsistent with the directions on the label.

DIRECTIONS FOR USE

This pesticide may be used only for repackaging and formulating as an algacide or bactericide, registered under the Pest Control Products Act.

PRECAUTIONS

Hazards to Humans and Domestic Animals

PREVENT ACCESS BY UNAUTHORIZED PERSONNEL

DANGER: May Be Fatal if Swallowed. **CORROSIVE** to the eye. **DO NOT** get in eyes. Corrosive to the skin. **DO NOT** get on skin. Irritating to Nose and Throat. Wear goggles or face shield and rubber gloves when handling. Harmful if inhaled. Avoid breathing dust and fumes. Remove and wash contaminated clothing and shoes before reuse.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to aquatic organisms. **DO NOT** discharge effluent containing this product into sewer systems, lakes, streams, ponds, estuaries, or other waters.

PHYSICAL AND CHEMICAL HAZARDS: Strong oxidizing agent! Use only clean, dry utensils made of metal or plastic each time Calcium Hypochlorite is taken from the container. Contamination with moisture, acids, organic matter, other chemicals or easily combustible materials such as petroleum or paint products may start a chemical reaction with generation of heat, liberation of hazardous gases and possible generation of a fire or explosion. In case of contamination or decomposition, do not reseal container. If possible, isolate container in open air or well-ventilated area. Flood with large volumes of water, if necessary.

STORAGE AND DISPOSAL

Read before using.

Keep in original container in a cool, dry place.

Keep container closed when not in use.

Keep away from heat sources, sparks, open flames and lighted tobacco products.

Store this product away from food or feed.

Use only clean, dry utensils made of metal or plastic each time Calcium Hypochlorite is taken from the container.

Residual material remaining in empty drum can react if mixed with incompatible materials to cause a chemical reaction with subsequent generation of heat, liberation of hazardous gases and possible generation of fire.

DISPOSAL: Canadian formulators of this product should dispose of unwanted active ingredient and containers in accordance with municipal and provincial regulations. For additional details and information on clean up of spills, contact the Provincial Regulatory Agency and the Manufacturer.

In Case of Fire: Drench with water. Calcium Hypochlorite supplies oxygen; therefore, attempts to smother fire with a wet blanket, carbon dioxide, or a dry chemical extinguisher are ineffective.

In Case of Spill or Leak: Use extreme caution. Contamination may cause chemical reaction with subsequent generation of heat, liberation of hazardous gases and possible generation of fire. If fire or reaction occurs in area of spill, douse with plenty of water. In case of small dry spills, sweep up spilled material using a clean dry shovel and broom and place into clean dry containers. Dispose of material and rinse water in accordance with all applicable governmental regulations.
