20g

DIRECTIONS FOR USE: When threatened by a dog, turn actuator 45 degrees to “Ready” position. Point nozzle directly toward dog’s face. Depress actuator button for a burst of spray to a maximum range of 3 metres. Move away to avoid exposure to spray. **Refer to the brochure for full DIRECTIONS FOR USE.**

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. Contents under pressure. Container may explode if heated. Do not place in hot water or near radiators, stoves or other sources of heat. Do not puncture container or store at temperatures over 50° C. Avoid contact with skin, eyes and inhalation of spray. Wash hands before touching eyes or face and prior to using the washroom. Persons with respiratory problems or wearing contact lenses should not use this product. **Do not** spray this product on objects or humans.

FIRST AID:

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice. If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. If inhaled: Move person to fresh air. If person is not

breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth if possible. Call a poison control centre or doctor for further treatment advice. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Treat symptomatically.

STORAGE: Store this product away from food or feed.

DISPOSAL: Do not incinerate. Reduce pressure to zero prior to disposal in regular household garbage.

SPIKE 2 STREAM DOG REPELLENT

SPIKE 2 STREAM DOG REPELLENT

For your safety, please read this information thoroughly before attempting to use this product.

DIRECTIONS FOR USE

This product is for use against aggressive dogs only. This unit utilizes a patented safety actuator. To ready the unit, turn actuator tab 45 degrees from the safety to the ready position directly over the cut in the main body. Hold the unit upright in either hand so that the spray orifice (top and front of the unit) is facing directly at the dog's face. Depress the top of the unit with your thumb to actuate the spray. The spray will discharge from the unit to a range of three meters. To stop the spray, release thumb pressure from the top of the unit. It is important to use short bursts of spray for maximum effectiveness! Upon contact, Spike 2 Stream Dog Repellent will affect the dog's eyes, respiratory system and mucous membranes resulting in temporary impairment of vision and coughing. Symptoms will subside in about 35-45 minutes.

DO NOT apply to any body of water.

FOR OUTDOOR USE ONLY. Capsaicin sprays have been proven effective in repelling aggressive dogs only when sprayed directly into the face, especially in the eyes or on the nose of the animal. This product is only to be used to deter aggressive dogs that are attacking or about to attack people. DO NOT seek out encounters with dogs. There is no guaranteed method of responding to an aggressive dog encounter because each encounter is unique. This product is a dog attack repellent that may protect users in some unexpected confrontations with these animals but may not be effective in all situations or prevent all injuries. This product must be used only as a last resort. DO NOT use this product against people or non-target animals.

READ THIS ENTIRE LABEL BEFORE TAKING THIS PRODUCT INTO AREAS WHERE AGGRESSIVE DOGS MIGHT BE ENCOUNTERED.

PRECAUTIONS

Contents under pressure. Container may explode if heated. Do not place in hot water or near radiators, stoves or other sources of heat. Do not puncture container or store at temperatures over 50° C. Avoid contact with skin, eyes and inhalation of spray. Wash hands before touching eyes or face and prior to using the washroom. Persons with respiratory problems or wearing contact lenses should not use this product. While travelling, do not store in passenger compartment. Contact air carriers concerning transport. **Do not** spray this product on objects or humans.
