

2024-1500
08-10-2024

This label has been updated according to the re-evaluation decision for Potassium Dimethyldithiocarbamate, SRD2024-01. While users are encouraged to follow this updated label immediately, the previously approved label is valid until 02-26-2026 in accordance with the phase out period set out in the re-evaluation decision for Potassium Dimethyldithiocarbamate, SRD2024-01. This previously approved label will be provided upon request by emailing hc.pmra.info-arla.sc@canada.ca.
In your email please include the product name and Registration number of the label you are requesting.

FORMULA

advice.

BROAD SPECTRUM LIQUID MICROBICIDE FOR THE CONTROL OF ALGAE, BACTERIA AND FUNGI

MB 3035

LOT#

NET WEIGHT 20 kg

DIRECTIONS FOR USE:

1) Cooling Tower Systems: Prior to use in water cooling towers, systems should be cleaned to remove organic, inorganic and microbiological deposits. An initial slug addition of 160 to 240 mL per 10,000 liters of water should then be added to the sump of the cooling water towers. Repeat the initial dosage until control is evident. Subsequent slug additions of 80 to 240 mL per 10,000 liters of water should be added every 2 to 5 days or as needed. The frequency of addition will depend on the relative amount of bleedoff and the severity of the microbiological problem.

2) Industrial Air Washing Systems: Prior to use in air washers, systems should be cleaned to remove organic, inorganic and microbiological deposits. An initial slug addition of 37 to 47 mL per 1,000 liters of water should then be added to the sump or the water collector trays. Repeat the initial dosage until control is evident.

Subsequent slug additions of 17 to 47 mL per 1,000 liters of water should be added every 1 to 5 days or as needed. The frequency of addition will depend on the relative amount of bleedoff and the severity of the microbiological problem.

For use only in systems equipped with effective mist eliminating components.

For use with closed loading and transfer systems only (i.e., dry coupling).

A closed transfer system is defined as a procedure for removing a pesticide from its original container, rinsing the emptied container and transferring the pesticide and rinse solution through connecting hoses pipes, and coupling that are sufficiently tight to prevent exposure of any person to the pesticide or rinse solution. Furthermore, the closed transfer system must be equipped with a dry coupling system that is designed to drip less than 2 mL per coupling.

DO NOT discharge effluent containing this product into sewer systems, lakes, streams, ponds, estuaries, ocean or other waters.

DO NOT contaminate irrigation or drinking water supplies or aquatic habitats by cleaning of equipment or disposal of wastes.

DO NOT apply in metal working fluids at rates higher than [80ppm of potassium dimethyldithiocarbamate to be reported in product equivalent value].

DO NOT use this product in the production of paper or paper coatings that will come in contact with food.

FIRST AID:

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment

FORMULA MB 3035

READ THE LABEL BEFORE USING

NET CONTENTS: 20 LITRES

ACTIVE INGREDIENT: Potassium dimethyldithiocarbamate.....50%

REGISTRATION NO.: 34064 PEST CONTROL PRODUCTS ACT.

DANGER CORROSIVE, POISON

CORROSIVE TO EYES

SKIN IRRITANT

POTENTIAL SKIN SENSITIZER

NOTICE TO USER: This pest control product is to be used only in accordance with the directions on the label. It is an offence under the Pest Control Products Act to use this product in a way that is inconsistent with the directions on the label.

If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

If swallowed: Call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person.

PRECAUTIONS:

DANGER KEEP OUT OF REACH OF CHILDREN

POTENTIAL SKIN SENSITIZER

Corrosive to the eye. DO NOT get in eyes. Corrosive to skin. DO NOT get on skin. Potential skin sensitizer. Harmful if swallowed. Avoid contact with eyes, skin, clothing and the contamination of food. Wear long-sleeved shirt, long pants, chemical-resistant gloves, socks and shoes, and protective eyewear (goggles or face shield) when handling the concentrated product or treated process fluids and during clean-up and repair. Remove and wash contaminated clothing before re-use.

DISPOSAL:

Do not reuse this container for any purpose. This is a recyclable container and is to be disposed of at a container collection site. Contact your local distributor/dealer or municipality for the location of the nearest collection site. Before taking the container to the collection site:

1. Triple- or pressure-rinse the empty container. Add the rinsings to the treatment site.
 2. Make the empty, rinsed container unsuitable for further use.
- If there is no container collection site in your area, dispose of the container in accordance with provincial requirements.

For information on disposal of unused, unwanted product, contact the manufacturer or the Provincial Regulatory Agency. Contact the manufacturer and the Provincial Regulatory Agency in case of a spill, and for clean-up of spills.

TOXICOLOGICAL INFORMATION:

Note to physician: Probable mucosal damage following ingestion may contraindicate gastric lavage. Avoid giving alcohol or alcohol related product.

ENVIRONMENTAL HAZARDS:

2024-1500
08-10-2024

Toxic to fish and other aquatic organisms. Keep out of lakes, streams, or ponds. Do not contaminate water, food, or feed by storage or disposal.
