DIRECTIONS FOR USE

DO NOT contaminate irrigation or drinking water supplies or aquatic habitats by cleaning of equipment or disposal of wastes.

Weight per tablet: xx g

Maintain recommended daily levels as determined by testing kit.

Free Available Chlorine:	1.0 – 3.0 ppm
pH:	7.2 – 7.8
Total Alkalinity:	100 – 120 ppm
Calcium Hardness:	200 – 300 ppm

For outdoor pools, chlorine residuals can be protected from destruction by the sun's rays by adding 300 g of stabilizer [cyanuric acid] per 10,000 L of pool water to yield the required initial concentration of 30 ppm.

If using an automatic chlorinator, fill the chamber[s] with **Azur Xtra Zinc Tab** and adjust flow rate according to manufacturer's recommendations to maintain proper chlorine residual. Adding tablets to the pool's skimmer basket is an alternative chlorine feed method. Daily usage should approximate 25 g of **Azur Xtra Zinc Tab** per 10,000 L of pool water.

NOTE: Hot weather, heavy pool usage, and rain may require higher usage rates to maintain proper chlorine residuals.

Periodic superchlorination of pool water is recommended. Follow label instructions of superchlorination product being employed.

Azur Xtra Zinc Tab contains a stabilizer which can accumulate in pool water. Keep stabilizer within the range of 30-100 ppm by dilution with fresh water.

WARNING

Direct tablet contact may cause bleaching of vinyl or painted pool surfaces.

Automatic feeding devices employing these tablets must be totally free from traces of other pool sanitizers to avoid the probability of an explosion.

PRECAUTIONS

KEEP OUT OF REACH OF CHILDREN.

Dangerous gas formed when mixed with acid. Do not mix with any other chemical. Strong oxidizing agent. May cause fire or explosion if contaminated. It is recommended wearing rubber gloves when handling this product. Avoid contact with skin and eyes. Avoid breathing dust. Harmful if swallowed. Keep container closed and store in a cool, dry location.

FIRST AID

If swallowed, call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person.

If on skin or clothing, take off contaminated clothing. Rinse skin immediately with plenty of water for 15 – 20 minutes. Call a poison control centre or doctor for treatment advice.

If in eyes, hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

If inhaled, move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice.

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION

Treat symptomatically.

STORAGE

To prevent contamination, store this product away from food or feed.

DISPOSAL

Rinse container thoroughly before discarding. Do not reuse empty container. Offer for recycling if available or dispose of in accordance with local and provincial regulations.

For information on disposal of unused, unwanted product, contact the manufacturer or the Provincial Regulatory Agency. Contact the manufacturer and the Provincial Regulatory Agency in case of a spill and for clean-up of spills.

NOTICE TO USER

This pest control product is to be used only in accordance with the directions on the label. It is an offence under the Pest Control Products Act to use this product in a way that is inconsistent with the directions on the label.”
