250-652-5888

For use on lawns and turf (on rights of way, non-crop areas, golf courses, parks, cemeteries and athletic fields) consisting of one or more of Kentucky bluegrass, perennial ryegrass, and fescue (tall fescue, chewings fescue, and/or creeping fescue) for the control of dandelion (*Taraxacum officinale*), English daisy (*Bellis perennis*), false dandelion (*Hypochaeris radicata*), white clover (*Trifolium repens*), black medic (*Medicago lupulina*), bull thistle (*Cirsium vulgare*), common chickweed (*Stellaria media*), slender speedwell (*Veronica filiformis*), narrow-leaved plantain (*Plantago lanceolata*), dove's-foot geranium (*Geranium molle*), wild (Robert's) geranium (*Geranium robertianum*), lawn burweed (*Soliva pterosperma*), moss and algae, and for the suppression of broad-leaved plantain (*Plantago major*).

PRECAUTIONS:

KEEP OUT OF REACH OF CHILDREN. May irritate eyes. Avoid contact with skin, eyes or clothing. Avoid breathing vapour or spray mist. Wear a long sleeved shirt, long pants, chemical-resistant gloves, and shoes plus socks when mixing, loading, and applying the commercial product, and for cleanup and repair activities. Wash hands thoroughly with soap and water after handling and before eating, drinking, and chewing gum or chewing tobacco. DO NOT enter or allow people or pets to enter treated areas until sprays have dried.

FIRST AID:

If swallowed:

Call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person.

If on skin or clothing:

Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 - 20 minutes. Call a poison control centre or doctor for treatment advice.

If inhaled:

Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice.

If in eyes:

Hold eye open and rinse slowly and gently with water for 15 - 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION:

Treat symptomatically.

DIRECTIONS FOR USE

As this product is not registered for the control of pests in aquatic systems, DO NOT use to control aquatic pests.

DO NOT contaminate irrigation or drinking water supplies or aquatic habitats by cleaning of equipment or disposal of wastes.

Mix 1 part FIESTA WSG Lawn Weed Killer with 25 parts water (40g in 1L of water). One litre of diluted product will treat between 3.3 and 6.6 m². Any standard hand-held or backpack sprayer can be used. Use a coarse nozzle setting to reduce drift. Uniform coverage is important.

Repeat treatment every three to four weeks if necessary. For spot treatment, spray weeds until foliage is thoroughly wetted, just to the point of runoff. Visible signs of control may be seen within several hours after application. Susceptible weeds, moss or algae will turn brown or black. Occasionally a darkening of the grass leaf blades can occur after treatment, however the grass will recover within a few days to several weeks. May stain thatch (dead grass under lawn); this does not affect the health of the grass.

Rate of Spray Solution	Rate of Soluble Granule	Weeds Controlled	(Optional column) Area Treated
150 mL/m ²	6 g/m ²	Rate for easy-to-control weeds: black medic (<i>Medicago lupulina</i>), slender speedwell (<i>Veronica filiformis</i>), wild (Robert's) geranium (<i>Geranium robertianum</i>) and moss. This rate can also be used for weed seedlings of: false dandelion (<i>Hypochaeris radicata</i>), English daisy (<i>Bellis perennis</i>), dandelion (<i>Taraxacum officinale</i>) or white clover (<i>Trifolium repens</i>). A second application at this rate may be required to achieve control of these weeds.	166.7 m ²
200 mL/m ²	8 g/m ²	Rate for control of the following weeds: dandelion (<i>Taraxacum officinale</i>), English daisy (<i>Bellis perennis</i>), false dandelion (<i>Hypochaeris radicata</i>), white clover (<i>Trifolium repens</i>), bull thistle (<i>Cirsium vulgare</i>), common chickweed (<i>Stellaria media</i>), narrow-leaved plantain (<i>Plantago lanceolata</i>), dove's foot geranium (<i>Geranium molle</i>), lawn burweed (<i>Soliva ptero-sperma</i>), and algae.	125 m ²
300 mL/m ²	12 g/m ²	Rate for the following tough perennial weed: broad-leaved plantain (<i>Plantago major</i>) (suppression only).	83.3 m ²

MIXING INSTRUCTIONS

Thoroughly clean spray equipment before mixing and application of this product.

1. Fill tank ¼ full with the required amount of total spray volume of water.
2. Add FIESTA WSG Lawn Weed Killer at recommended rates and begin agitation.
3. Continue to fill tank while directing stream of water onto any floating FIESTA WSG Lawn Weed Killer granules.
4. Agitate in tank until completely dissolved before applying.
5. Keep agitator running during filling and mixing. It's best to use solution within 24 hours.
6. Thoroughly rinse application equipment after use.

Use Precautions: Do not apply to drought stressed grass; ensure that the lawn is well watered prior to application. Do not apply when the daytime temperature will exceed 30°C. Do not apply to bentgrass. If unsure of grass sensitivity, test spray a small area of your lawn. Do not apply to newly seeded areas until 4 or more weeks after grass seedlings have emerged. Avoid spraying desirable plants. Any desirable plants or structures accidentally contacted should be rinsed immediately with water. To avoid staining, wait until treated area dries before re-entry. Do not apply if rainfall is expected within 3 hours of application. Do not irrigate within 3 hours of application. Do not apply more than 4 times per area per year.

STORAGE

Store this product away from food or feed.

DISPOSAL:

1. Triple- or pressure-rinse the empty container. Add the rinsings to the spray mixture in the tank.

2. Follow provincial/territorial instruction for any required additional cleaning of the container prior to its disposal.
3. Make the empty container unsuitable for further use.
4. Dispose of the container in accordance with provincial/territorial requirements.
5. For information on disposal of unused, unwanted product, contact the manufacturer or the provincial/territorial regulatory agency. Contact the manufacturer and the provincial/territorial regulatory agency in case of a spill, and for clean-up of spills.

NOTICE TO USER:

This pest control product is to be used only in accordance with the directions on the label. It is an offence under the *Pest Control Products Act* to use this product in a way that is inconsistent with the directions on the label.

[Optional statements:

- Canadian Patent No. 2,477,493

- **SELECTIVE BROADLEAF WEED KILLER**

- No unpleasant odor.

- Made with iron.

- Rainfast in 3 hours

- [This container] Will treat up to 166.7 m²

-Thoroughly soak weeds just to the point of runoff

-Second application may be required

-Built-in Measuring [Cap/ Cup/Scoop] [Included]

-Cap works as a measuring cup [to help you use the right amount]

-Easy to measure and pour

-[Easy-Measure/ Easy measure] [cap/ cup/scoop]

-[Easy] Pour [cap/ spout]

-Easy pour cap [helps deliver the/ helps measure the] [correct/ desired/ right] amount of product

-Measuring [Cup /Cap/Scoop] Included]
