W. Neudorff GmbH KG
An der Muhle 3,
31860 Emmerthal, Germany

Canadian Agent:

Neudorff North America
PO Box 178
Brentwood Bay, BC V8M 1R3
250-652-5888

PRECAUTIONS:

KEEP OUT OF REACH OF CHILDREN. May irritate eyes. Avoid contact with skin, eyes or clothing. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum or using tobacco. Avoid breathing vapour or spray mist. Wear waterproof gloves during mixing, loading, application, clean-up and repair. DO NOT enter or allow people or pets to enter treated areas until sprays have dried.

FIRST AID:

If swallowed:

Call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person.

If on skin or clothing:

Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 - 20 minutes. Call a poison control centre or doctor for treatment advice.

If inhaled:

Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice.

If in eyes:

Hold eye open and rinse slowly and gently with water for 15 - 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION:

Treat symptomatically.

PESTS/SITES:

Controls the following lawn weeds: Dandelion, English daisy, False dandelion, White clover, Black medic, Bull thistle, Common chickweed, Slender speedwell, Narrow-leaved plantain, Broad-leaved plantain (suppression only), Dove's-foot geranium, Wild (Robert's) geranium, Lawn burweed, Moss, and Algae.

For use on lawn turf consisting of one or more of Kentucky bluegrass, perennial ryegrass, and fescue (tall fescue, chewings fescue, and/or creeping fescue) for control or suppression of broadleaf weeds.

DIRECTIONS FOR USE

DO NOT apply to any body of water.

DO NOT contaminate irrigation or drinking water supplies or aquatic habitats by cleaning of equipment or disposal of wastes.

Mixing instructions:

Shake container before use. Mix one part FIESTA WSG Broadleaf Weed Killer for Lawns with 25 parts water (40g in 1L of water).

[optional language:

[To measure the right amount of product, use the convenient, easy-measure cap with measuring markings on the inside.]

[To measure the right amount of product, use the convenient, easy-measure scoop with measuring markings on the inside.]

[To measure the right amount of product, use the convenient, easy-measure cup with measuring markings on the inside.]

One litre of diluted product will treat between 3.3 and 6.6 m².

Application Directions:

Use with any standard hand-held or backpack sprayer.

Rinse equipment thoroughly after application.

Hand-held or backpack sprayers:

-Use a coarse nozzle setting to reduce drift.

-Apply the mixed solution at a rate of 150-300 mL/m². The standard rate for Fiesta WSG Broadleaf Weed Killer for Lawns is 200 mL spray/m²; use the higher rate (300 mL spray/m²) on broad-leaved plantain (suppression only).

-Fiesta WSG Broadleaf Weed Killer for Lawns may also be used at 150 mL spray/m² on moss, black medic, slender speedwell, wild (Robert's) geranium or on weed seedlings of false dandelion, English daisy, dandelion or white clover.

How to Apply:

- Spray weeds until foliage is thoroughly soaked, just to the point of runoff.

- Uniform coverage is important.
- A second application may be required. Repeat treatment every three to four weeks if necessary.

What to expect:

- Visible signs of control may be seen within several hours after application.
- Susceptible weeds, moss or algae will turn brown or black. Occasionally a darkening of the grass leaf blades can occur after treatment; however the grass will recover within a few days to several weeks.
- May stain thatch (dead grass under lawn); this does not affect the health of the grass.

Use Precautions:

- Do not apply to drought stressed grass; ensure that the lawn is well watered prior to application.
- Do not apply when the daytime temperature will exceed 30°C.
- Do not apply to bentgrass. If unsure of grass sensitivity, test spray a small area of your lawn.
- Do not apply to newly seeded areas until 4 or more weeks after grass seedlings have emerged.
- Avoid spraying desirable plants. Any desirable plants or structures accidentally contacted should be rinsed immediately with water.
- To avoid staining, wait until treated area dries before re-entry.
- Do not apply if rainfall is expected within 3 hours of application.
- Do not irrigate within 3 hours of application.
- Do not apply more than 4 times per area per year.

[optional language:

*The Scotts® Dial 'N Spray® Hose-End Sprayer is a hose-end sprayer with various settings. The dial setting is the number of mL of product being applied per litre of water. Please refer to the Scotts® Dial 'N Spray® Hose-End Sprayer label for complete use instructions.]

STORAGE:

Store this product in its original container and keep in a secure storage area out of reach of children and domestic animals. Store unused material, tightly closed, in original container only, away from open flame. Protect from freezing. Store this product away from food or feed.

DISPOSAL:

Do NOT reuse the empty containers. Dispose in household garbage. Unused or partially used products should be disposed at provincially/territorially or municipally designated hazardous waste disposal sites.

[NOTICE TO USER:

This pest control product is to be used only in accordance with the directions on the label. It is an offence under the *Pest Control Products Act* to use this product in a way that is inconsistent with the directions on the label.]
