DIRECTIONS FOR USE:

DASCOCIDE #48 is normally added to metalworking fluids at concentrations of 250 to 1000 ppm (250 to 100 mL per 1000 L) and maintained at such concentrations to control micro-organisms.

PRECAUTIONS: Danger - Corrosive to eyes and causes skin burns. May cause allergic skin reaction. May be fatal if inhaled. May be fatal if swallowed or absorbed through skin. Do not get into eyes, on skin or clothing. Wear goggles or face shield and rubber gloves when handling.

FIRST AID INSTRUCTIONS:

IF SWALLOWED: Do not induce vomiting. Drink promptly a large

quantity of milk, egg whites, gelatin solution or if these are not available drink large quantities of water. Avoid alcohol. Call physician immediately.

IF INHALED: Remove immediately to fresh air. If not breathing, apply artificial respiration. If breathing is difficult, give oxygen. Call physician.

IF ON SKIN: Wash thoroughly with soap and water. Remove and wash contaminated clothing before re-use.

IF IN EYES: Wash with plenty of water for at least 15 minutes. Call a physician.

TOXICOLOGICAL INFORMATION: Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsions may be needed.

STORAGE: Do not contaminate water, food or feed by storage or disposal. Open dumping is prohibited. Do not re-use plastic container.

DISPOSAL: Empty containers should be rinsed 3 times with the diluted metalworking fluid. The fluid used for rinsing should be put back into the cutting fluid system. Dispose containers in landfill sites, approved for pesticide disposal.

NOTICE TO USER: This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.
