NOTICE TO USER:

This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.

NOTICE TO BUYER:

Seller's guarantee shall be limited to the terms set out on the label and subject thereto. The buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product on that condition.

A non-foaming highly reactive slimicide and microbiocide for use in cooling water.

DIRECTIONS FOR USE:

Dosages and method of application of Ferricide-200 will depend on the type of equipment to be treated and the type and quantity of microbiological life involved.

Initial dosage of Ferricide-200 should be 0.63-5.0 L per 10 000 litres of water in the system. Continuing dosages should be applied at 0.32-5.0 L per 10 000 litres of water in the system at intervals of 2 to 3 days of as needed to maintain satisfactory control.

Slug additions should be made to cooling tower basin or sump, or at an alternate point which provides good mixing.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN

Causes eye damage and skin irritation. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Avoid contamination of food. Keep drum closed when not in use. Wear chemical safety goggles or face shield and rubber gloves when handling. Wash thoroughly after handling. Do not use in potable water systems.

FIRST AID INSTRUCTIONS:

If swallowed, induce vomiting if patient is alert. Call a physician immediately. If splashed in eyes or on skin, flush thoroughly with water. Call a physician if irritation persists.

DISPOSAL:

1. Rinse the emptied container thoroughly and add the rinsings to treatment site.
2. Follow provincial instructions for any required additional cleaning of the container prior to its disposal or reconditioning.
3. Dispose of the container in accordance with provincial requirements.
4. For information on the disposal of unused, unwanted product and the cleanup of spills contact the regional office of Environment Canada.
5. For small spills, recover free liquid. Soak up residue with solids absorbent. DO NOT FLUSH INTO SURFACE STREAMS. INFORM ENVIRONMENT CANADA AS IN #4.

KEEP FROM FREEZING

This product decomposes in the presence of alkaline materials. This product should be protected from vapours of ammonia and amines during handling and storage to prevent the release of formaldehyde.
