NOTICE TO USER:

This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.

PRECAUTIONS

FOR EXTERIOR USE ONLY!

NOT FOR USE IN DWELLINGS.

Contains hazardous product between the layers of cardboard. Do not tear off the paper.

May be fatal if swallowed. Do not breathe vapors. Do not get in eyes, on skin, or on clothing. Avoid breathing dust. Wear chemical resistant gloves, long-sleeved shirts and long pants, and protective eyewear when handling or applying the product.

Applicators must not eat, drink, or use tobacco products during those parts of the application process that may expose them to the wood treatment formulation.

Wash thoroughly after skin contact, and before eating, drinking, use of tobacco products, or using restroom. Remove contaminated clothing and wash affected area with soap and water.

Do not apply this product to interior of domestic dwellings or farm buildings. Do not apply to logs for the construction of log homes. Do not apply this product where it may become a component of food, drinking water supplies, or animal feeds. Provide mechanical protection to above ground portions of the treatment formulation or of pole groundline bandages where contact by persons, pets or farm animals may occur.

This product is toxic to fish and wildlife. Do not contaminate water by cleaning of equipment or disposal of wastes.

FIRST AID

For skin contact wash thoroughly with soap and water. Remove contaminated clothing and wash separately from other laundry. For eyes, flush with plenty of water for five minutes and seek medical attention. If swallowed give soluble calcium in any form (i.e. milk) and seek medical attention.

DIRECTIONS FOR USE

ADZ-PAD extends the service life of treated railroad ties and other structural timbers for three to five years by penetrating into the wood and providing effective protection against decay producing fungi (such as brown and white rot).

ADZ-PAD is to be placed in the adzed portion of the railroad

tie by hand or by machine. Pad (treated areas) should be completely covered by tie plate. Pad should be directly exposed to rain.

DISPOSAL

Completely empty bag, Follow provincial instruction any required additional cleaning of the container prior to disposal. Make the empty container unsuitable for further use. Dispose of the container in accordance with provincial requirements. Do not contaminate water bodies with pads or empty bags. For information on the disposal of unused, unwanted product and the cleanup of spills, contact the regional office of Environmental Protection, Environment Canada.

NOTICE TO BUYER

Sellers guarantee shall be limited to the terms set out on the label and, subject thereto, the buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product on that condition.

This label transcript service is offered by the Pest Management Regulatory Agency to provide efficient searching for label information. This service and this information do not replace the official hard-copy label. The PMRA does not provide any guarantee or assurance that the information obtained through this service is accurate, current or correct, and is therefore not liable for any loss resulting, directly or indirectly, from reliance upon this service.
