PRODUCT OF CANADA
GILLEX P.O. BOX 333, ST. R
TORONTO, ONTARIO
M4G 4C3

DIRECTIONS FOR USE: For use as crack and crevice treatment or spot treatment to control insects mentioned on the front panel. Shake well before use. Hold container approximately 30 cm from

surface being sprayed and spray until wet. Thorough applications produce a coating which will vaporise into cracks and crevices for insect control. If reinfestation occurs, repeat applications as necessary. Provide adequate ventilation after indoor use. KEEP PETS AND CHILDREN AWAY FROM SURFACE UNTIL DRY.

OUTDOOR USE: Spray outside surfaces of screens, doors, window frames, foundations, patios, light fixtures and other places where insects may alight, or congregate and enter.

WASP AND HORNET NESTS: BUGCON releases a fine spray that allows treatment of nests from several feet away. Treat at night or late evening when insects are inside the nest. Apply spray with 2-3 seconds bursts directly into the nest opening so that the liquid contacts the inside of the nest. If unable to spray directly into the nest, a heavy residual spray around and into the opening where insects gain entrance will eventually eliminate the pests. Repeat as necessary.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. FLAMMABLE. Contents under pressure. Avoid contact with eyes, skin or clothing. Do not puncture or incinerate. Do not expose to temperatures over 50 deg C. Do not use near open flame. Do not smoke while using. Do not spray towards eyes. Harmful if swallowed, inhaled or absorbed through the skin. Avoid breathing of spray mist and use with adequate ventilation. Do not use as a space spray. Remove pets and cover fish bowls before spraying.

FIRST AID: If on skin, wash with soap and water. If in eyes, rinse with plenty of water. If irritation persists, consult a physician. Propoxur is a mild cholinesterase inhibitor. Atropine is antidotal.

NOTICE TO BUYER: Seller's guarantee shall be limited to the terms set out on the label and subject thereto, the buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product under that condition.

DISPOSAL: When container is empty, press button to release all pressure, then wrap and dispose in household garbage. Do not puncture or incinerate.
