NOTICE TO USER:

This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.

NOTICE TO BUYER:

Seller's guarantee shall be limited to the terms set out on the label and subject thereto. The buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product on that condition.

A highly effective non-foaming biocide for use in open cooling water systems.

DIRECTIONS FOR USE:

Dosages and method of application of CSW 838 will depend on the type of equipment to be treated and the type and quantity of microbiological life involved.

Initial dosage of CSW 838 should be 385 ppm (3.85 L per 10 000 litres of water in the system). Continuing dosages should be

applied at 65-130 ppm (0.65-1.3 L per 10 000 litres of water in the system) at intervals of 2 to 3 days or as needed to maintain satisfactory control.

Slug additions should be made to cooling tower basin or sump, or at an alternate point which provides good mixing.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN

Harmful if swallowed. Workmen handling the product should wear rubber gloves and goggles and should avoid contact of the product with clothing or skin after any exposure. Wash promptly and thoroughly with an abrasive soap and cool water and finally with glycerin. Keep the drum closed when not in use. Do not reuse container. Destroy when empty. Do not use in potable water system.

FIRST AID INSTRUCTIONS:

If swallowed, induce vomiting if patient is alert. Call a physician immediately. If splashed in eyes, or on skin, flush thoroughly with water. Call a physician.

TOXICOLOGY:

Ingestion may cause nervous depression. Oils increase absorbance and toxicity. Alcohol should be avoided.

DISPOSAL:

1. Rinse the emptied container thoroughly and add the rinsings to treatment site.
2. Follow provincial instructions for any required additional cleaning of the container prior to its disposal or reconditioning.
3. Dispose of the container in accordance with provincial requirements.
4. For information on the disposal of unused, unwanted product and the cleanup of spills contact the regional office of Conservation and Protection Service, Environment Canada.
5. For small spills, recover free liquid. Soak up residue with solids absorbent. DO NOT FLUSH INTO SURFACE STREAMS. INFORM ENVIRONMENT CANADA AS IN #4.

KEEP FROM FREEZING
