REGISTRATION No. 6757  
PEST CONTROL PRODUCTS ACT

Recochem Inc.  
Montreal Toronto Vancouver  
H4T 1P4 L6T 1B5 V3C 4P2

DIRECTIONS:

Recochem's Creosote can be applied by brushing or dipping. Maximum penetration is obtained on properly seasoned surface dry lumber. All bark should be removed. If the treated wood is to be used in contact with the ground, or is to be subject to other severe decay hazards, two or more applications of preservative

should be made. Dipping or preferable soaking is recommended wherever possible to secure maximum penetration and protection. It is not recommended to paint over creosote as bleeding might occur. Do not use on surfaces which may come into contact with the body as Creosote may irritate sensitive skin.

PRECAUTIONS:

Keep out of reach of children. May cause severe skin irritation. Avoid contact with skin, eyes, and clothing. Wear gloves, long sleeved clothing and goggles when applying. Do not smoke when using. Do not use near plants. This product is toxic to fish. Do not contaminate water when cleaning equipment or disposing of wastes.

FIRST AID: Toxic if swallowed. If swallowed call a doctor. If on skin, wash immediately with soap and water. If in eyes, flush with clear water. If irritation persists, obtain medical attention.
