----- INSERT -----

HAGEN (R)

HAGEN FLEA COLLAR FOR DOGS DIRECTIONS: Remove collar from package and place around dog's neck. Attach collar so two fingers may be inserted easily between collar and dog's neck. Collar must be worn loosely, but securely enough to prevent easy removal and loss of the collar. Cut off any excess length of collar and discard in trash. Check and adjust collar periodically to assure a proper fit. Collar should be removed when dog is bathed with soap or detergent.

Do not use on puppies under 6 weeks of age.

The flea collar starts killing fleas when it is placed around the dog's neck. The fleas on the dog will be killed and any new ones which may temporarily appear on the dog will also be killed during the 4 months (17 weeks) collar is worn. For continuous protection, replace collar when effectiveness diminishes.

PRECAUTION: Do not open inner envelope until ready to use. Do not allow children to play with enclosed collar or envelope. This collar is intended for use as an insecticide generator and is not to be taken internally by man or animals. Not intended for use on humans. Hands should be washed following application.

Some animals may be sensitive to this collar. Any collar, when fastened too tightly, may cause skin irritation. If irritation persists after proper adjustment, remove the collar and consult a veterinarian. Do not use any other pesticide on dog while collar is worn. Do not use on sick or convalescing animals.
