DIRECTIONS FOR USE
SHAKE WELL BEFORE USING

For use indoors and outside homes, apartments, campers, mobile
homes.

CONTACT SPRAY-KILLS AND REDUCES INFESTATIONS OF cockroaches,

crickets, silverfish, clover mites, centipedes, millipedes, firebrats, earwigs, sow bugs, ants, spiders, fleas: Use as a spot treatment. When possible, spray directly on ant nests to reduce infestations. Apply as a coarse spray into hiding places such as cracks, crevices, moist areas, openings around pipes and sinks, under refrigerators and other appliances, along baseboards and in storage areas. Apply spray until area is wet, but not to the point of runoff. Repeat as necessary, but no more frequently than every 4 weeks.

ANTS: To kill ants, spray trails, nests and points of entry within buildings and homes. Spray directly on ants where possible. Repeat as necessary.

FLEAS, BROWN DOG TICKS: Thoroughly apply as a spot treatment to infested areas such as pets' beds and resting quarters, nearby cracks and crevices, along and behind baseboards, window and door frames and localized areas of floor and floor covering where these pests may be present. Old bedding of pets should be removed and replaced with clean fresh bedding after treatment. DO NOT TREAT PETS WITH THIS PRODUCT. Do not apply to furniture. For effective flea and tick control, treatment of the pet must be combined with the cleanup and sanitation of any area used by the pet. Vacuum floors, carpets, furniture, etc. (discard vacuum bag after use) and wash the pet's bedding, living quarters, and surrounding areas. Treat pets with a product registered for animal application to control the source of flea and tick infestation.

CARPET BEETLES: Thoroughly apply as a spot treatment along baseboards and edges of carpeting, under carpeting, rugs and furniture, in closets and on shelving, and wherever else these insects are seen or suspected.

RESIDUAL SPRAY: Aids in the control of cockroaches, crickets, silverfish, centipedes, millipedes, earwigs, sow bugs. Effective up to 4 weeks. Apply on baseboards, cracks and crevices, around door and window frames, and other hiding places such as closets, in back of and under appliances, sink and cupboards in kitchens and bathrooms; in basements, apply in hiding places in cracks and crevices, lower walls and dark places. Apply as a coarse wet spray in a 6-inch band until area is thoroughly wet but not to the point of runoff. Repeat as necessary but no more frequently than every 4 weeks.

PESTS OUT-OF-DOORS

HOUSEFLIES, MOSQUITOES, OUTDOORS:

For outdoor use only as an aid in reducing annoyance from these insects. Spray outside surfaces of screens, doors, window frames or wherever these insects may enter the room. Also treat surfaces around light fixtures on porches, in garages, and other places where these insects alight or congregate. Repeat as necessary.

ANTS, BROWN DOG TICKS, CRICKETS, AND EARWIGS, OUTDOORS: For treatment of localized infestations of these insects in outdoor areas where there are weeds or bushy non-crop areas, spray infested areas thoroughly. For ants, thoroughly wet hills and runways. Repeat application as infestations warrant and as reinfestation occurs.

PRECAUTIONS:

KEEP OUT OF REACH OF CHILDREN. Contents under pressure. Keep away from sparks and open flame. Do not puncture or incinerate container. Exposure to temperatures above 120°F may cause bursting.

This product is toxic to fish, birds and other wildlife. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

Harmful if swallowed, inhaled, or absorbed through the skin. Avoid breathing vapors or spray mist. Avoid contact with eyes, skin or clothing. Do not allow spray to contact food, feedstuffs and water supplies. Thoroughly wash food contact surfaces with soap and water if they become contaminated by application of this product. Do not allow children or pets to contact treated surfaces until spray has dried. Remove pets and cover fishbowls (tanks) before spraying. Do not apply this product in conduits, motor housings, junction and switch boxes or other electrical equipment because of possible shock hazard. Do not use this product in edible product areas of food processing plants, restaurants or other areas where food is commercially prepared. Do not use in serving areas while food is exposed.

FIRST AID:

If swallowed: Do not induce vomiting. Get immediate medical attention or call poison control centre.

If inhaled: Remove from contaminated atmosphere. Give artificial respiration and oxygen if necessary.

If on skin: In case of contact, remove contaminated clothing and wash skin with soap and water.

If in eyes: Flush eyes with plenty of water.

Treat symptomatically. Atropine only by injection is an antidote.

TOXICOLOGICAL INFORMATION:

Chlorpyrifos is a cholinesterase inhibitor. Atropine is antidotal.

NOTICE TO USER:

This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.

DISPOSAL:

When container is empty, press valve to release all remaining pressure. Dispose of empty container in accordance with provincial requirements. For information on the disposal of unused, unwanted product and the cleanup of spills, contact the provincial regulatory agency or the manufacturer.
