SHAKE WELL BEFORE USING
DIRECTIONS FOR USE

SHAKE WELL BEFORE USE: Before storing after use, invert container and spray until only air comes out to clear valve and spray nozzle. **SPRAY IN UPRIGHT POSITION ONLY.**

How to Use Aerosol Boric Acid: Aerosol Boric Acid is for use only with injection tube and for injecting into cracks and crevices and void spaces where cockroaches may be hiding, living and breeding. Place injector tip 1-3 cm into cracks, crevices, holes and other small openings where cockroaches may be a problem. Release approximately 1 second spray per spot. In serious infestation, place spots approximately 30cm apart. In light infestation or preventive treatment, place spots approximately 1 meter apart. In long running cracks, move the injector tip along the crack while spraying. Move at the rate of 30 linear centimeters per second in heavy infestation or 1 meter per second in light infestation. This powdery spray leaves a white residue. Should misapplication occur, wipe off visible residue. Should misapplication occur, wipe off visible residue. See the additional directions below for effective kill of cockroaches.

COCKROACHES - Spray into hiding places such as cracks and crevices, moist areas, opening around pipes and sinks, under refrigerators, behind baseboards, coffee makers, meter boxes and manholes. Spray directly on cockroaches in these locations when possible.

Apply into cracks and crevices of tables and chairs.

VOLUMETRIC TREATMENT OF INACCESSIBLE VOIDS (false ceilings, wall voids, equipment voids, attics, crawl spaces, and manholes where human contact with treated surfaces will be minimal): For exposed stages of Cockroaches- Calculate void's horizontal surface area and treat at a rate of 1 second per 900cm². Spray by placing injection tip into crack or crevice, hole or other small opening into void space. Repeat use every thirty days.

APPLICATIONS IN FOOD HANDLING ESTABLISHMENTS: Places other than private residences in which food is held, processed, prepared and observed.

FOOD AREAS – APPLICATION LIMITED TO CRACK & CREVICE TREATMENT ONLY: Includes areas for receiving, storage packing, (canning, bottling, wrapping, boxing), preparing, edible waste storage, and enclosed processing systems (mills, dairies, edible oils, syrups). Serving areas (when food is exposed and facility is in operation) would be considered a food area.

Apply in small amounts directly into cracks and crevices using injection tube in points between different elements of construction, between equipment and floors, opening leading to voids and hollow spaces in walls, equipment legs and bases where cockroaches hide. Care should be taken to avoid depositing the product onto exposed surfaces or introducing the material into the air. Avoid contamination of food or food processing surfaces.

In food processing plants, food service establishments and restaurants apply **ONLY** when plant is **NOT** in operation. Remove all food and food packaging material before treatment. Cover all food processing surfaces thoroughly and clean with potable water before resuming operation.

APPLICATION OF THIS PRODUCT IN FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS, OTHER THAN AS A CRACK AND CREVICE TREATMENT IS NOT PERMITTED.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN Causes eye irritation. Do not get in eyes, on clothing or skin. Wear goggles or face shield when applying. Avoid breathing spray mist. Use only in well ventilated areas. Wash thoroughly with soap and water after handling and before smoking or eating. Remove contaminated clothing and wash before reuse. Avoid contamination of food, utensils and food preparation areas.

PHYSICAL OR CHEMICAL HAZARDS

Contents under pressure. Do not puncture or incinerate container. Do not use or store near heat or open flames. Exposure to temperatures above 54 deg. C may cause bursting. Do not spray on plastic, painted or varnished surfaces. Do not spray directly into any electronic equipment such as radios, televisions, computers, motors or into outlets and switches or any other location where the powdery residue may foul or short electric contacts and circuits.

FIRST AID

IF ON SKIN: Remove contaminated clothing and wash affected areas with soap and water. **IF IN EYES:** Flush eyes with plenty of water. Get medical attention immediately. **IF INGESTED: DO NOT** induce vomiting. Obtain immediate medical attention or call a Poison Control Center. **IF INHALED:** Remove patient to fresh air, keep warm and at rest. Apply artificial respiration if necessary. Obtain immediate medical attention. Take container, label or product name and Pest Control Registration number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Treat symptomatically.

DISPOSAL

Do not reuse container. Do not incinerate or puncture. When container is empty, press valve to release all remaining pressure. Dispose of empty container in accordance with provincial requirement. For information on disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill, and for clean-up of spills.

NOTICE TO USER: This pest control product is to be used only in accordance with the directions on the label. It is an offence under the Pest Control Products Act to use this product in a way that is inconsistent with the directions on the label. The user assumes the risk to persons or property that arises from any such use of this product.
