MOSQUITO TRAP

Mega-Catch™ introduces the new Premier

- Mega-Catch™ Traps come fully assembled – simply install, connect to power, switch on and let Mega-Catch™ go to work
- Mega-Catch™ has exploited the sensory signals which attract certain mosquitoes by using sophisticated electronic components and advanced design features to produce one of the world's most advanced mosquito traps.
- Includes optional chemical attractant systems for increased capture rate.
- For outdoor use
- Catches mosquitoes
- Uses no flammable liquids like Propane
- Programmable to multiple operational settings
- 2 catch options (catch bag or liquid catch container)
- Durable all weather casing and quality components
- Lethal to mosquitoes
- See independent test results at www.megacatch.com.
- Mega-Catch™ Mosquito Traps should be used in conjunction with other sensible control measures designed to manage mosquito problems

FIRST AID

If swallowed: Administer water and call a physician or poison control centre immediately. Do not induce vomiting.

If directly inhaled: Move person to fresh air, away from dispenser. Get medical attention

If on skin or clothing: Wash with plenty of soap and water. Seek medical attention if irritation persists.

If in eyes: Flush eyes with plenty of water. Seek medical attention if irritation persists

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION:

Treat symptomatically

PRECAUTIONS:

KEEP OUT OF REACH OF CHILDREN

Fatal or poisonous if swallowed. May irritate the skin. Avoid contact with skin. Causes eye irritation. DO NOT get in eyes.

DO NOT contaminate irrigation or drinking water supplies or aquatic habitats by disposal of wastes.

Hazardous to Humans and Domestic Animals. Wash hands before eating, drinking, chewing gum, using tobacco or using bathroom facilities. Avoid contact of areas under foil wrapper with skin and eyes.

DIRECTIONS FOR USE:

To install or replace the Mega-Catch™ Octenol Fragrance Strip into this Trap:

1. Ensure the power to this mosquito trap is disconnected.
2. Remove the Mega-Catch™ Octenol Fragrance Strip from its pouch and be careful not to touch the exposed holes on its surface.
3. Place the strip in one of the slots in the base of the trap and then reconnect the power.

Mega-Catch™ Octenol Fragrance Strip should be effective for up to 30 days depending on weather conditions.

STORAGE AND DISPOSAL:

Mega-Catch™ Octenol Fragrance Strip Storage: Store in original container in a cool, dry area and out of reach of children until ready to use.

Mega-Catch™ Octenol Fragrance Strip Disposal: DO NOT reuse the spent lures. Dispose in household garbage. Unused or partially used products should be disposed of at provincially or municipally designated waste disposal sites.

NOTICE TO USER:

This pest control product is to be used only in accordance with the directions on the label. It is an offense under the *Pest Control Products Act* to use this product in a way that is inconsistent with the directions on the label. The user assumes the risk to persons or property that arises from any such use of this product.

Mega-Catch™ Premier Mosquito Trap Model MCP800

INSTALLATION OF MEGA-CATCH™ PREMIER MOSQUITO TRAP MODEL MCP800

For optimum performance this Trap should be sited in a predominantly shaded area between the area to be protected (e.g.: dwelling or barbecue) and the source of mosquitoes (e.g.: shrubs, wooded or wet area).

We recommend installation within a planted area to create the ideal environment. Do not locate the trap in direct sunlight.

This trap is most conveniently installed on the Stand that is supplied with the Trap. [Illustration of siting recommendations, prevailing wind direction, mosquito source]
