[BACK PANEL - ENGLISH]

DIRECTIONS:

FOR USE ON	INSECTS CONTROLLED	TIMING
Vegetables	Aphids, asparagus beetles, blister beetles, flea beetles, potato beetles, potato leaf hoppers, Mexican bean beetles, tomato worms, imported cabbage worm, cabbage looper, striped cucumber beetle, 12-spotted cucumber beetle and diamondback moth	Apply a thin, even coating to both upper and lower leaf surfaces. Repeat weekly. Can be applied up to one day before harvest.
Raspberries, blackberries, currants and flowering plants	Aphids	

PRECAUTIONS:

KEEP OUT OF REACH OF CHILDREN. May be harmful if swallowed. Avoid breathing dust. Wash from skin with soap and water. For eyes use clear water. Avoid contaminating food and feed. Rotenone is toxic to fish and wildlife. Do not contaminate domestic, recreational and irrigational waters.

FIRST AID:

If swallowed, bring patient to hospital, taking product label with you. If in eyes, flush with water and get medical attention. If on skin, wash with soap and water. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Treat symptomatically.

DISPOSAL:

Do not re-use empty container. Dispose of empty container in household garbage.

NOTICE TO USER:

This pest control product is to be used only in accordance with the directions on the label. It is an offence under the Pest Control Products Act to use this product in a way that is inconsistent with the directions on the label. The user assumes the risk to persons or property that arises from any such use of this product.
