Happy tails  
Scoopable Cat Litter  
Antibacterial Formula

## DIRECTIONS FOR USE:

1. Use a clean, moisture-proof cat box large enough for your pet. Keep filled at an even depth of 5-8 cm (2-3 in). Do not mix with other litters. No liner is required. 2. Granules rapidly absorb urine, clumping it into a solid ball, so it does not seep to the bottom of the litter box. For hygienic reasons, remove solid waste and clumped balls daily with a slotted scoop and discard. Remaining granules are fresh, clean and need not be discarded. 3. Every 2 or 3 days, simply add more **Compliments Scoopable Cat Litter** to maintain at least 5 cm in the litter box.

## DISPOSAL:

Dispose of used or unused product with household garbage.

- Effectively fights litter box germs
- Long Lasting Odour Control
- 99% dust free
- Harder, Faster clumping formula

A non-toxic, low-dust formula absorbs and clumps so that waste scoops away easily; bacterial growth slows down which helps eliminate odours. Economical to use; no liner is needed, you discard only soiled litter. **Compliments Scoopable Cat Litter** has excellent absorbing power to help keep your cat's litter box extra dry and fresh. Absorbs moisture on contact and does not break down. Results are a fresher, cleaner, more sanitary cat tray for your pet.

## PRECAUTIONS:

Pregnant or nursing women and people with a suppressed immune system should note that a parasite found in cat feces can cause toxoplasmosis. They should exercise caution and consult a physician before handling a litter box. Always wash hands thoroughly after preparing or cleaning the litter box. For further information, consult your local public health office.

## WARNING:

Do not flush waste down the toilet or any other water waste system.  
Do not use this product as a traction aid. It becomes slippery when wet.  
Keep the litter away from food preparation.

## TOXICOLOGICAL INFORMATION:

Treat Symptomatically

## CONTENTS:

Ground Clay
