Later's Dog & Cat Repellent should be used in conjunction with training. For both indoor and outdoor situations, the most effective control for a pet is the sharply spoken word backed up with disciplinary action.

DIRECTIONS:

INDOORS, to break your pet of undesirable habits, such as sleeping on furniture, rugs and other forbidden areas in your home, spray the article of furniture, rug, etc. lightly with the repellent so that the area or object is slightly moistened. Before spraying extensive areas of rugs, fabrics or plastics, test the effect of the repellent by first treating a small inconspicuous area.

The repellent may stain or soften some fabrics or plastics. An alternate method to avoid possible damage is to spray a piece of cloth lightly and place it on the object or area in your home to be protected. Repeat daily, or as necessary, until undesirable habit is broken.

OUTDOORS, to prevent your pet, or stray animals from soiling flower beds, areas of lawn, trees, shrubbery or evergreens, spray the edges of flower beds, trunks of trees, the bases of shrubbery and evergreens, patches of lawns, etc. lightly every day or every other day with the repellent. Stray animals are frequently attracted to areas where urine or feces have been deposited. First, remove any droppings, then spray the spot with this masking odor. Re-apply as often as necessary until undesirable habits of your pet or stray animals are changed. Do not apply directly to foliage or shrubs or to ornamental, soft bodied plants. Apply only in areas adjacent to buildings. Do not apply in wildlife habitat areas (e.g. parklands, forested lands).

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. Pressurized contents. Do not store at temperatures above 50°C or place container in hot water or near a radiator or stove, or where excessive temperatures may be encountered. Do not puncture or incinerate. Do not apply to food/feed crops or animals. Avoid contamination of food and feedstuffs. Avoid contact with the skin, eyes and clothing. Avoid inhalation of spray. Wear rubber gloves when applying this product by hand. Wash hands with soap and water after use and before eating and smoking. Do not apply this product in a way that it will contact any person or pet, either directly or through drift. Do not allow persons or pets to enter the treated area until the spray had dried. Do not apply directly to aquatic habitats (such as lakes, rivers, sloughs, ponds, coulees, prairie potholes, creeks, marshes, streams, reservoirs or wetlands) or estuarine/marine habitats. **DO NOT** contaminate water by cleaning equipment or disposing of wastes.

TOXICOLOGICAL INFORMATION: Treat symptomatically.

DISPOSAL: When container is empty, press button to release all pressure, then discard in household garbage.

FIRST AID: If swallowed, contact a doctor or poison control centre **IMMEDIATELY**. **If in eyes**, flush with water for 15 minutes and get medical attention. If irritation persists, get medical attention or contact poison control centre **IMMEDIATELY**. **If on skin**, wash with soap and water. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

NOTICE TO BUYER: Seller's guarantee shall be limited to the terms set out on the label and, subject thereto, the buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product on that condition.
