BY CHAPMAN CHEMICAL COMPANY, MEMPHIS, TENNESSEE 38109

DIRECTIONS FOR USE

MITROL T-1030 is an emulsifiable liquid microbiocide concentrate. It is used to control sapstain of freshly cut softwood and hardwood lumber, logs, poles, posts and timbers.

LUMBER: Freshly cut lumber 5 centimetres or less in thickness should be dipped or sprayed until complete surface wetting is accomplished using a dispersion prepared by mixing 2 to 4 litres of MITROL T-1030 in 100 litres of water.

LOGS: Spray the ends and barkless areas of the freshly cut logs with a dispersion of 2 to 4 litres of MITROL T-1030 in 100 litres of water.

POLES, POSTS AND TIMBERS: Dip or spray until all surfaces are wetted in a dispersion of 2 to 4 litres of MITROL T-1030 in 100 litres of water.

Logs should be bright and free of infection when converted into lumber. For best protection during warm weather, lumber should be treated within 24 hours after being sawed. MITROL T-1030 should be thoroughly dispersed in water using a mixing tank or container of known capacity prior to being added to the dipping vat. The dipping vat should be protected from rain to prevent dilution of the dispersion.

Treated lumber should not be exposed to heavy rains immediately after treatment. Lumber piles should be as narrow as practicable, properly elevated, well spaced, and adequately roofed.

PRECAUTION

KEEP OUT OF REACH OF CHILDREN

Harmful if swallowed. May be harmful if absorbed through the skin. Workmen handling the product should wear rubber gloves and goggles and should avoid contact of the product with clothing or skin. After exposure wash promptly and thoroughly with an abrasive soap and cool water and finally with glycerin. Avoid contact with skin and eyes. Causes eye damage. Keep the drum closed when not in use. Do not reuse container.

STORAGE

Store unused concentrate in a secure area.

DISPOSAL

1. Rinse the emptied container thoroughly and add the rinsings to treatment site.
2. Follow provincial instructions for any required additional cleaning of the container prior to its disposal or reconditioning.
3. Dispose of the container in accordance with provincial requirements.
4. For information on the disposal of unused, unwanted product

and the cleanup of spills, contact the regional office of the Environmental Protection Service, Environment Canada.

5. For small spills. Recover free liquid. Soak up residue with solids absorbent. DO NOT FLUSH INTO SURFACE STREAMS. INFORM ENVIRONMENT CANADA AS IN #4.

Any treated wood is not to be used for constructing food holding containers, food storage facilities, or food growing buildings (e.g. mushroom houses).

This product is toxic to fish. Treated effluent should not be discharge where it will drain into lakes, streams, ponds, or public water. Do not contaminate water by cleaning of equipment or disposal of wastes.

FIRST AID

If swallowed call a physician immediately. Give patient doses of powdered charcoal immediately or all he can swallow of raw egg whites,gruel,or flour and water. then induce vomiting with salt, soap or mustard in warm water. In case of contact with eyes, flood eyes immediately and thoroughly with cool water for 15 to 30 minutes. See a physician if any irritation persists. In case of persistent irritation of the skin, obtain medical attention.

NOTICE TO USER

This product is to be used in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.

NOTICE TO BUYER

Seller's guarantee shall be limited to the terms set out on the label and subject thereto, the buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product on that condition.

This label transcript service is offered by the Pest Management Regulatory Agency to provide efficient searching for label information. This service and this information do not replace the official hard-copy label. The PMRA does not provide any

guarantee or assurance that the information obtained through this service is accurate, current or correct, and is therefore not liable for any loss resulting, directly or indirectly, from reliance upon this service.
