Formula 194 is used to control algae, bacteria, and fungi in recirculating commercial and industrial water cooling towers.

Formula 194 is effective at alkaline pH.

DIRECTION FOR USE

Prior to the use of Formula 194 in water cooling towers, systems

should be cleaned to remove algal growth, microbiological slime, and other deposits. Then make an initial slug addition of 3,000 mL to 5,000 mL per 10,000 litres of water in the system. Repeat initial dosage until control is evident. Make subsequent slug additions of 500 mL to 1,000 mL per 10,000 litres of water every 2 to 7 days or as needed. The frequency of addition depends upon the relative amount of bleedoff and the severity of the microbiological problem. Slug addition should be made in the sump of water cooling towers.

PRECAUTIONS KEEP OUT OF REACH OF CHILDREN

Harmful if swallowed. Avoid breathing vapours. Avoid contact with skin, eyes, or clothing.

ENVIRONMENTAL HAZARDS: This product is toxic to fish. Keep out of lakes, streams, or ponds. Do not contaminate water, food, or feed by storage or disposal. Do not reuse empty container.

FIRST AID: If splashed in eyes or on skin, flush thoroughly with water. If eye irritation persists, seek medical attention. If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution, or, if these are not available, drink large quantities of water. Call a physician immediately.

NOTICE TO USER: This control product is to be used only in accordance with the directions of this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.

NOTICE TO BUYER: Seller's guarantee shall be limited to the terms set out on the label and subject thereto, the buyer assumes the risk to persons or property arising from the use of handling of this product and accepts the product on that condition.

DECONTAMINATION AND DISPOSAL: Pesticide or rinsate that cannot be used or chemically reprocessed should be disposed of in a landfill approved for pesticides or buried in a safe place away from water supplies. Triple rinse (or equivalent) all containers and, for metal containers, offer for recycling or reconditioning (for plastic containers, dispose of in an incinerator), or dispose in landfill approved for pesticide container or bury in a safe place.

This label transcript service is offered by the Pest Management Regulatory Agency to provide efficient searching for label information. This service and this information do not replace the official hard-copy label. The PMRA does not provide any guarantee or assurance that the information obtained through this service is accurate, current or correct, and is therefore not liable for any loss resulting, directly or indirectly, from reliance upon this service.
