DIRECTIONS FOR USE:

Swimming Pools - Initial dose 150 ml of Algex per 10,000 litres of water for a freshly filled pool. Maintenance dose 50 ml of Algex per 10,000 litres of water weekly. If pool has visible Algae growth, treat with initial dose, vacuum after 4 to 6 hours and repeat if necessary. Adjust pH to 7.4 to 7.6.

KEEP OUT OF REACH OF CHILDREN.

Avoid contact with skin and eyes. Avoid contamination of food. Do not pre-mix with other chemicals. Add directly to pool. Rinse empty container thoroughly with water before discarding.

FIRST AID: In case of contact with skin and eyes, wash

thoroughly with water. If irritation persists, get medical attention. If swallowed, drink milk, egg whites, gelatin solution or if these are not available drink large quantities of water. Call a physician.
