NOTICE TO BUYER:

Seller's guarantee shall be limited to the terms set out on the
label and subject thereto. The buyer assumes the risk to persons
or property arising from the use or handling of this product and
accepts the product on that condition.

DIRECTIONS FOR USE:

Paper Mills:

CHIMTOX 960 should be used at 0.07 - 0.12 kg per ton of dry paper
and paperboard produced, at least once per day.

Oilfield Applications:

Use 100 ppm active ingredient based on the water content of the system until control is achieved. Maintenance dosage is 10-25 ppm. In all applications, cut or open the bag to expel the product into the system in areas specified below:

In all cases avoid skin contact, wear protective gloves.

Gas Wells:

Introduce through wellhead valving system, so product drops down tubing.

Oil Wells:

Drop down tubing when sucker rods are pulled.

Storage Tanks:

Drop through thief hatch.

Cooling Towers:

Pre-clean heavily fouled system (e.g. with chlorine). Shock dosages of 100 ppm based on the water content of the system until control is achieved. Maintenance dosages is 15-50 ppm. Cut or tear open the bag to expel the product directly into the sump of the system at a convenient point.

In all cases avoid skin contact, wear protective gloves.

NOTICE TO USER:

This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.

FIRST AID:

In case of contact with skin or eyes, give prolonged irrigation with water. In case of ingestion, wash out the mouth thoroughly with water and give water to drink. In all cases, obtain medical attention.

PRECAUTIONARY STATEMENTS:

Severe eye and skin irritant. Avoid ingestion, inhalation and contact with skin, eyes and clothing. Where there is a risk of contact, wear protective clothing.

Store away from:

- (a) Oxidizing materials
- (b) Heat and sources of ignition

- (c) Food and food containers

Avoid contact with metals.

SPILLAGE:

Immediately sweep up and remove. Then, clean the area with detergent and water.

DISPOSAL:

1. Rinse the emptied container thoroughly and add the rinsings to the treatment site.
2. Follow provincial instructions for any required additional cleaning of the container prior to its disposal.
3. Make the empty container unsuitable for further use.
4. Dispose of the container in accordance with provincial requirements.
5. For information on the disposal of unused, unwanted product and the cleanup of spills, contact the Provincial Regulatory Agency or the Manufacturer.

TOXICOLOGICAL INFORMATION:

The granular and concentrated solutions are irritants.
