POTENTIAL SKIN SENSITIZER

NET CONTENTS 25 KG
PBI/Gordon 1217 W. 12th St. Kansas City Mo. 64101-1407
1 800 821-7925

DIRECTIONS: To be used only in the manufacture of a fertilizer-pesticide which is registered under the Fertilizer Act.

The advantage of DMB #2 is that it is a dry product and can be mixed at relatively high concentrations without causing the fertilizer to bind and lump together as happens with liquid products.

To insure complete mixing of the herbicide powder and the fertilizer add 4.75 kg of propylene glycol or hexylene glycol per tonne of product.

The rate recommended controls the following weeds. Dandelion, plantain, ground ivy (Creeping Charlie), chickweed, black medick, clover, ragweed, bedstraw, shepherds purse, poison ivy, devil's paint brush, English Daisy, heal all, knotweed, buttercup, and most other broadleaf weeds found in lawns.

Add DMB #2 to the fertilizer blender in a volume that will provide an application rate of the product of 44 g/100m².

For example if the fertilizer product is applied at 1 kg per 100m², 44 kg of DMB #2 should be added to each 1000 kg of fertilizer.

	RATE OF APPLICATION OF FERTILIZER	AMOUNT OF DMB #2 PER TONNE (1000 kg) OF FERTILIZER
One tonne batch (1000 kg) add 44 kg DMB # 2 DMB#2 does not settle out of the fertilizer blend. Once it is blended it remains distributed evenly in the fertilizer	1.0 kg/100 M ²	44.0 kg
	1.5 kg/100 M ²	29.3 kg
	2.0 kg/100 M ²	22.0 kg
	2.25 kg/100 M ²	19.6 kg
	2.5 kg/100 M ²	17.6 kg
	3.0 kg/100 M ²	14.7 kg
	4.0 kg/100 M ²	11.0 kg
	5.0 kg/100 M ²	8.8 kg

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN AND UNAUTHORIZED PERSONNEL. DANGER: Corrosive, Causes eye damage and skin irritation. Do not get in eyes, on skin or on clothing.

PROTECTIVE CLOTHING AND EQUIPMENT: HANDLING THE CONCENTRATE (mixing and loading):

1. Wear long sleeved shirt, long pants, chemical-resistant gloves, socks, shoes, protective eye wear (face shield or safety glasses) and coveralls or chemical resistant apron when mixing loading or handling this product.
2. Rinse gloves before removal.
3. Properly dispose of heavily contaminated clothing.

OPERATOR USE PRECAUTIONS: - Wear freshly laundered clothing and clean protective equipment daily. - Rinse gloves before removal. - Wash hands, before eating, drinking, using tobacco or using the toilet. - If herbicide penetrates clothing remove immediately; then wash thoroughly and put on clean clothing. Throw away clothing and other absorbent materials that have been drenched or heavily contaminated with this product's concentrate.

-After using this product, remove clothing and launder separately and promptly and thoroughly wash hands and exposed skin with soap and water. Follow manufacturer's instructions for cleaning personal protective clothing and equipment. If no such instructions for washables are provided, use detergent and hot water. Keep and wash personal protective equipment separate from household laundry.

- After work, remove all clothing and shower using soap and water.

Under no circumstances should this herbicide product or any 2,4-D weed killer be used in the vicinity of tomatoes, garden crops, grapes, ornamentals or any other susceptible crops, or severe damage may result. Do not use equipment for mixing fertilizers that do not contain a weed killer. A small amount of residue in a plant fertilizer can destroy desirable plants. Do not use this product through any type of irrigation system. Avoid contamination of water supplies that may be used to irrigate or water susceptible crops, or is used for domestic purposes. This product is toxic to aquatic invertebrates. Drift or runoff may adversely affect aquatic invertebrates and nontarget plants. Do not apply directly to water. Do not contaminate water when disposing of equipment washwaters.

Most cases of groundwater contamination involving phenoxy herbicides such as 2,4-D have been associated with mixing/loading and disposal sites. Caution should be used when handling 2,4-D pesticides at such sites to prevent contamination of groundwater supplies. Use of closed systems for mixing or transferring this pesticide will reduce the probability of adverse effects. Placement of the mixing/loading equipment in an enclosed space will help prevent dust from drifting and causing damage.

STORAGE: Store in original container in a locked storage area inaccessible to children or pets. To prevent cross contamination, do not store near other pesticides, fertilizers, food, feed or seeds.

FIRST AID: IF IN EYES: In case of eye contact, immediately flush eyes with plenty of water for 15 minutes. Call a physician or Poison Control Centre IMMEDIATELY.

IF ON SKIN: Wash promptly with soap and water. Rinse thoroughly. If irritation develops, get medical attention.

IF SWALLOWED: Drink promptly a large quantity of milk, egg white, gelatin solution, or if these are not available, large quantities of water. Avoid alcohol. Do not induce vomiting or give anything by mouth to an unconscious person. Call a physician or Poison Control Centre IMMEDIATELY.

IF INHALED: Remove victim to fresh air and apply respiration if indicated.

TOXICOLOGICAL INFORMATION: Probable mucosal damage may contraindicate the use of gastric lavage. Treat symptomatically.

Take container, label or product name and Pest Control Product Registration Number with you, when seeking medical attention.

FOR THE DISPOSAL OF EMPTY CONTAINERS: Canadian formulators of this product should dispose of unwanted active ingredient and containers in accordance with municipal or provincial regulations.

For information on disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill, and for information on the clean-up of spills.

NOTICE TO USER: This control product is to be used only in accordance with the directions on this label. It is an offense under the PEST CONTROL PRODUCTS ACT to use a control product under unsafe conditions.

NOTICE TO BUYER: Seller's guarantee shall be limited to the terms set on the label and, subject thereto, the buyer assumes the risk to persons or property arising from the use of handling of this product and accepts the product on that condition.
