DIRECTIONS FOR USE

GENERAL INFORMATION: This product is especially formulated for the control
of Onion Maggot and Smut, and may be used for the following types of onions;

dry onions grown from seed or sets; dutch sets grown from seed; pickling onions grown from seed; green bunching onions grown from seeds; spanish onions grown from transplants. If this container is stored for longer than 6 months, the rates should be increased by about 10%.

APPLICATION: Treatment must be made at planting time by drilling the ETHION-THIRAM directly into the seed furrow at the same depth as the seed. The seeding equipment should have separate hoppers for the ETHION-THIRAM and the seed.
