READ THE LABEL BEFORE USING

LES PRODUITS CHIMIQUES SUPERIEUR INC.
LAVAL QUEBEC, H7Y 1C4
(514) 689-2171

USE AREAS: RESTAURANTS, FOOD PLANTS, DAIRIES, STABLES, COW BARNES, POULTRY HOUSES, SKI LODGES, SUMMER LODGES, AND RESORTS AND OTHER AREAS WITH AT LEAST 170 m³ OF FREE FLOW AIR SPACE WHERE FLIES, MOSQUITOES AND GNATS ARE AN ANNOYANCE.

SUPER MIST + must be used with the Cam Spring Action Type automatic dispenser. The automatic dispenser activates that valve, releases 55 mg of SUPER MIST + formula every 15 minutes. The continuous use of SUPER MIST + will reduce the

flying insect populations - the effect should be noticeable within a few hours. Each can contains enough product to protect a room of 170 m³(cu. meters) for up to 30 days.

DIRECTIONS: Remove protective cap from top of can and insert can into special automatic dispenser. Place dispenser/actuator 2-3 metres above floor at a point where air circulation will carry particles throughout the area.

PRECAUTIONS: CONTENTS UNDER PRESSURE. Container may explode if heated. Do not expose to temperatures above 50°C. Do not puncture or incinerate. Do not contaminate food, feed or water. Avoid contact with skin and inhalation of spray mist. Wash after using. Contents toxic to fish and birds. Do not install directly over polished, plastic or varnished surfaces. KEEP OUT OF REACH OF CHILDREN. Dispose of empty container with regular garbage.

NOTICE TO USER: This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.

LIMITATION OF WARRANTY: Seller's guarantee shall be limited to the terms set out on the label and subject thereto. The buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product on that condition.
