DIRECTIONS: FOOT BATH TRAYS - Use 15 mL per litre of water.
Empty trays and refill daily with a fresh solution.

DIRECTIONS FOR GENERAL DISINFECTING Important - DO NOT mix or add
to soap solutions. Thoroughly clean soiled surfaces first with a

soap or detergent solution. Rinse well. For initial disinfection use 30 mL per litre of water then decrease dilution to 15 mL per litre of water for regular disinfecting. For lightly soiled surfaces Iodophor CL may be used at 15 mL per litre of water as a combined cleaner and disinfectant.

PRECAUTIONS: "KEEP OUT OF REACH OF CHILDREN". Avoid contact with full strength material. "WARNING - EYE - IRRITANT". If after continuous use hand irritation should occur, plastic gloves are recommended.

FIRST AID: In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. In eye, call a physician. Remove and wash all contaminated clothing before reuse. If swallowed, drink milk, egg whites, gelatin solution, or if not available, drink large quantities of water. CALL A PHYSICIAN.

NOTICE TO USER:

This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.

This label transcript service is offered by the Pest Management Regulatory Agency to provide efficient searching for label information. This service and this information do not replace the official hard-copy label. The PMRA does not provide any guarantee or assurance that the information obtained through this service is accurate, current or correct, and is therefore not liable for any loss resulting, directly or indirectly, from reliance upon this service.
