

2002/2007

USA/GB sera pondclear destroys existing algae in a garden pond. It does not harm fish or affect plant growth.
Directions: apply during the coolest part of the day. Dilute 1:100 parts of fresh water, then introduce into the infected pond. Maintain strong water aeration during treatment. In obstinate cases, repeat treatment after one week. Do not apply to ponds with outflows.
Caution: Keep out of reach of children and pets.
Disposal: for information on the disposal of unused, unwanted product, and the cleanup of spills, contact the Provincial Regulatory Agency or the Manufacturer.
First Aid: If swallowed, induce vomiting, drink plenty of water. In case of eye or skin contact, flush with lukewarm running water.
