NOTICE TO USER

This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.

NOTICE TO BUYER

Seller's guarantee shall be limited to the terms set out on the label and subject thereto, the buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product on that condition.

FIRST AID

IN CASE OF POISONING, contact a physician or a poison control centre immediately. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention

IF SWALLOWED: If more than a trace has been swallowed and the patient is conscious, rinse out the mouth with water and give approximately 300mL (half pint) water to drink. Do not induce vomiting. Seek immediate medical attention; if necessary, transfer to hospital providing full details of the material swallowed.

IF INHALED: If gross exposure to airborne dust is suspected, or symptoms develop, remove patient to fresh air, keep warm and at rest. Seek medical attention.

IF ON SKIN: Remove contaminated clothing. Rinse off residual material with running water, then thoroughly wash the affected area with soap and water. Launder clothing before re-use, or discard.

IF IN EYES: Irrigate with eyewash solution or clean water for at least 15 minutes. Obtain immediate medical attention.

TOXICOLOGICAL INFORMATION

Provide symptomatic and supporative therapy as indicated; no specific is antidote available.

Following ingestion, adsorbents such as activated charcoal may be of value. For larger quantities, gastric lavage or emesis may be effective if performed within 4 hours of ingestion. However, the need for gastric lavage should be considered carefully, in view of the low acute oral toxicity of this material: it may be better to observe the patient and employ general supportive measures only. If gastric lavage is considered necessary, then inhalation of gastric contents must be prevented (particularly with any non-routine oil-based materials).

PRECAUTIONS

KEEP OUT OF REACH OF CHILDREN AND UNAUTHORIZED PERSONNEL.

Avoid formation of dust clouds in air which are highly sensitive to ignition by small heat sources, such as electrostatic sparks.

Harmful if swallowed. Potential skin sensitizer.

Avoid ingestion, contact with skin and eyes and inhalation of airborne dust.

When handling the concentrate or during cleanup, maintenance and repair activities wear eye protection (goggles), chemical-resistant gloves, apron or coveralls, boots and respiratory protection.

ENVIRONMENTAL PRECAUTIONS

Hexaconazole is toxic to fish and aquatic invertebrates. Do not contaminate lakes, ponds, rivers or other water bodies by direct application, cleaning of equipment, or disposal of wastes. Open dumping is prohibited.

STORAGE

Store in sealed containers in a secure, dry, ventilated area away from direct sunlight and sources of heat and ignition.

SPILL CLEANUP

Wear protective clothing (as described under PRECAUTIONS) to prevent skin and eye contact when attempting to clean up spill.

Sweep up the powder, being careful not to create a dust. Place sweepings in a metal pail for small spills and a metal drum for large spills. To clean up residual, cover the area with a floor sweeping product and sweep up into an open drum. Repeat if necessary. Seal pails or drums and dispose of contaminated materials in accordance with municipal or provincial recommendations.

In case of spill, contact Syngenta Crop Protection Canada, Inc. (See EMERGENCY NUMBER) for further information.

DISPOSAL

Canadian formulators using this product should dispose of unwanted active ingredient and containers in accordance with municipal or provincial regulations. For additional details and information on clean up of spills, contact the provincial regulatory agency and the manufacturer.

IN CASE OF EMERGENCY INVOLVING A MAJOR SPILL, FIRE OR POISONING CALL 1-800-327-8633 (FASTMED)

DIRECTIONS FOR USE

To be used only in the manufacture of a fungicide which is registered under the Pest Control Products Act. Read formulation details provided by the supplier.
