Du Pont Surfactant WK is a water soluble surface active agent recommended to increase contact activity of Du Pont Krenite* growth control agent. Follow Krenite* label directions carefully.

MIXING INSTRUCTIONS: Use 2.5 - 5 L per 1000 L water. Add to the spray tank mixture of Du Pont Krenite* Growth Control Agent and water. Stir or agitate to ensure uniform mixing before spraying.

NOTICE TO USER:

This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.

NOTICE TO BUYER:

Seller's guarantee shall be limited to the terms set out on the label and subject thereto. The buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product on that condition.

This label transcript service is offered by the Pest Management Regulatory Agency to provide efficient searching for label information. This service and this information do not replace the official hard-copy label. The PMRA does not provide any guarantee or assurance that the information obtained through this service is accurate, current or correct, and is therefore not liable for any loss resulting, directly or indirectly, from reliance upon this service.
