ENVIRONMENTAL HAZARDS: This product is toxic to fish. Keep out of lakes, streams or ponds. Do not contaminate water, food, or feed by storage or disposal.

NOTICE TO USER: This control product is to be used only in accordance with the directions on this label. It is an offense under the Pest Control Products Act to use a control product under unsafe conditions.

NOTICE TO BUYER: Seller's guarantee shall be limited to the terms set out on the label and subject thereto, the buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product on that condition.

Buckman

LABORATORIES

Busan 74 is used to control bacterial and fungal slime in pulp and paper mills.

DIRECTIONS FOR USE

Busan 74 is employed at the rate of 80 to 785 mL of Busan 74 per tonne of dry pulp or paper produced during the period of treatment. At a typical headbox or vat consistency of 0.5% this rate is equivalent to a rate of 0.5-5.0 ppm of Busan 74 during the period of treatment, based on the total weight flow of fiber and water. Treatment with Busan 74 is usually made for a period of 4-6 hr. When conditions favor unusually rapid slime growth, the Busan 74 treatment can be made once each 8 hr. or once each 12 hr. Under average conditions of slime growth, the treatment is made once each 24 hr. The addition should be made at a location where good mixing and agitation will ensure uniform distribution of Busan 74 in the mass of fiber and water. Technical assistance relating to specific problem areas is available on request.

NOTE: This product is not to be used in the production of paper or paperboard that comes in contact with food.

PRECAUTION

DANGER KEEP OUT OF REACH OF CHILDREN

Harmful if swallowed. May be harmful if absorbed through the skin. Workmen handling the product should wear rubber gloves and goggles and should avoid contact of the product with clothing or skin. After any exposure, wash promptly and thoroughly with an abrasive soap and cool water and finally with glycerin. Apply Busan 74 only as specified on this label. Do not reuse container. Destroy when empty.

FIRST AID

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

Eye exposure: Immediately flush with plenty of water for at least 15 to 30 minutes or longer till irritation subsides. Do not remove contact lenses if worn. Get immediate medical attention.

Skin exposure: Immediately wash with plenty of soap and water. Get medical attention.

Inhalation: Remove to fresh air. If breathing is difficult, administer oxygen. If symptoms persist, call a physician.

Ingestion: DO NOT INDUCE VOMITING. Rinse mouth with copious amounts of water or milk, first. Irrigate the esophagus and dilute stomach contents by slowly giving one (1) to two (2) glasses of water or milk. Avoid giving alcohol or alcohol related products. In cases where the individual is semi-comatose or convulsing, DO NOT GIVE FLUIDS BY MOUTH. In all cases, seek IMMEDIATE medical assistance or contact the Poison Control Centre.

TOXICOLOGICAL INFORMATION: Note to physician: Probable mucosal damage following ingestion may contraindicate gastric lavage.

DISPOSAL

Do not reuse this container for any purpose. This is a recyclable container, and is to be disposed of at a container collection site. Contact your local distributor/dealer or municipality for the location of the nearest collection site. Before taking the container to the collection site:

1. Triple-or pressure-rinse the empty container. Add the rinsings to the treatment site.
2. Make the empty, rinsed container unsuitable for further use.

If there is no container collection site in your area, dispose of the container in accordance with provincial requirements.

For information on disposal of unused, unwanted product, contact the manufacturer or the Provincial Regulatory Agency. Contact the manufacturer and the Provincial Regulatory Agency in case of a spill, and for clean-up of spills.
