NOTICE TO USER: This pest control product is to be used only in accordance with the directions on the label. It is an offence under the Pest Control Products Act to use this product in a way that is inconsistent with the directions on the label. The user assumes the risk to persons or property that arises from any such use of this product.

NATURE OF RESTRICTION: For use by authorized customers where the vendor maintains a record of sales, including the name and address of the purchaser, amount purchased together with a signed Notice to Purchaser.

Attack Deterrent

Notification Change

RESTRICTED USES: Trailguard Bear ~~Repellent~~ is designed to be used in wilderness applications to help defend individuals needing assistance when confronted by bears. This product is for spraying the face of aggressive bears only and is not to be used against domestic animals or human beings.

**This product has an effective range up to 5.5 metres (18 feet).
The canister empties in approximately 8 seconds.**

DIRECTIONS FOR USE: Special procedures must be followed to arm the container, apply the product and restore the safety clip to disarm the container. Before taking this product into bear country, read the directions below and familiarise yourself with these procedures. If you test-fire this container, make sure to discharge downwind and do not depress the actuator tab for more than one-half a second. Do not test-fire in areas inhabited by bears. After test firing, clean nozzle and can with soap and water to remove all residues from the can.

TO ARM AND APPLY: This product is designed for one-hand operation. Place forefinger through hole in handle, with thumb on orange safety clip curl. Pull safety clip straight back and off using thumb (Figure 1). Depress actuator tab for burst of spray (Figure 2).

Aim at the face and eyes of bear. Press trigger for 3 seconds in order to create a barrier of spray between you and the bear. Stop to evaluate the impact of wind and other factors and adjust your aim if needed before spraying again. The maximum effective range is 5.5 metres (18 feet). Spray is most effective at short range. Avoid discharging upwind and, after discharging, move away to avoid exposure to spray.

TO DISARM: Replace orange safety clip by firmly pushing with thumb until audible "snap" is heard (Figure 3).

Check to see if safety clip is securely in place. No gap should be visible between the actuator handle and the safety clip.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. Capsaicin sprays have been proven effective in repelling bears only when sprayed directly in the eyes or on the nose. This product should be used only as a last resort. There is no guaranteed method of responding to a bear encounter, each encounter is unique. Strict attention to the advice of wildlife professionals on safety is advised. Severe irritation to eyes, nose, respiratory and skin areas can occur. Use only in outdoor areas. Persons with respiratory problems or wearing contact lenses should not use this product. Avoid contact with skin and eyes and avoid inhalation of spray. Wash hands before touching eyes or face and prior to using the washroom. **WHEN TRAVELLING DO NOT STORE IN PASSENGER COMPARTMENT.** Contact air carriers for regulations concerning air transport. Contents under pressure. Container may explode if heated. Do not place in hot water or near radiators, stoves or other sources of heat. Do not leave in hot vehicle. For safety and performance, do not store above 50°C or below 0°C. Be careful not to puncture container. **DO NOT INCINERATE THE CONTAINER.** Use of this product for any purpose other than self-defense against bear attacks is a criminal offense. This product is for spraying the face of aggressive bears only and is not to be used against domestic animals or human beings. Capsaicin sprays will not repel bears from treated objects or areas. Do not spray objects (e.g., tents, clothing) or areas with this product.

FIRST AID: In case of external contact, **REMAIN CALM**, flush thoroughly with water. **DO NOT RUB.** If contact occurs with eyes, remove contact lenses and flush eyes with cool water. If swallowed, do not induce vomiting, contains petroleum distillate solvent. Obtain medical attention or call a Poison Control Centre immediately. If inhaled, move to fresh air. Symptoms usually disappear within one hour. If symptoms persist, obtain medical attention or call a Poison Control Centre immediately.

Take container, label or product name and PCP Registration Number with you when seeking medical attention.

DISPOSAL: When the container is empty, press valve to release all pressure. Dispose of empty container in accordance with Provincial requirements. For information on the disposal of unused, unwanted products, contact your Provincial Regulatory Agency or the Manufacturer.

TOXICOLOGICAL INFORMATION: This product contains a petroleum distillate.
