PRODUCT OF USA

DIRECTIONS FOR USE

This product is for use only with injection tube and for injecting into cracks and crevices where insects may be hiding, living and breeding. Place injector tip 2 cm into cracks, crevices, holes and other small openings where insects may be a problem. Release approximately 1 second spray per spot. In serious infestations, if possible, place spots approximately 30 cm apart. In light infestations or preventative treatment, place spots approximately 1 meter apart. See the additional directions below for effective control of specified insects.

CRAWLING PESTS: COCKROACHES, SPIDERS, TICKS, EARWIGS, CRICKETS, SOWBUGS, MILLIPEDES, CENTIPEDES - Spray into hiding places such as cracks and crevices, moist areas, openings around pipes and sinks, under refrigerators, behind baseboards, coffee makers, meter boxes and manholes. Spray directly on insects in these locations when possible. Repeat as necessary.

BOOKLICE & SILVERFISH: Spray cracks and crevices on baseboards, doorframes, bookcases and storage areas. Spray directly on insects in these locations when possible. Repeat as necessary.

ANTS: Spray onto trails, nests and points of entry around doors, windows, structural cracks and crevices. Spray directly on insects in these locations when possible. Repeat as necessary.

GRAIN WEEVILS, FLOUR BEETLES, CHOCOLATE MOTHS, CARPET BEETLES, DRUGSTORE BEETLES(in exposed adult and larval stage) and hibernating stages of **BOXELDER BUGS, ELM LEAF BEETLES, CLUSTER FLIES AND CLOVER MITES** - Contact as many insects as possible when treating infested areas such as cracks, crevices, in wall voids, around windows and doorframes, under siding, in machinery, and in dark secluded areas. Repeat as necessary.

Localized treatment of wood-destroying insects: CARPENTER ANTS, CARPENTER BEES, and TERMITES: Locate source of infestation. Inject 5-10 seconds spray into insect tunnels and cavities. For **CARPENTER BEES**, seal entrance openings with small pieces of stainless steel wool after spray application. The purpose of this treatment is to kill workers or winged reproductive forms which may be present in the treated channels and spaces at the time of treatment. Such application is not intended as a substitute for mechanical alteration, soil treatment or foundation treatment.

APPLICATION WITHIN FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS

For Use In Restaurants, Homes, Supermarkets, Meat Packing Plants, Food Processing Plants, Food Storage Areas of Warehouses and other Food Handling Establishments.

LIMITED TO CRACK & CREVICE TREATMENT ONLY. Apply a small amount of material directly into cracks and crevices such as expansion joints between different elements of construction or between equipment bases and the floor, wall voids, motor housing, junction boxes or switch boxes, conduits or hollow equipment legs where insects hide. Care should be taken to avoid depositing the product onto exposed surfaces or introducing the material into the air. Avoid contamination of food or food processing surfaces. Applications of this product in the food areas of food handling establishments, other than as a crack and crevice treatment, are not permitted. Limit application to shut down periods.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. Harmful if swallowed, inhaled, or absorbed through the skin. Avoid breathing of spray mist and provide adequate ventilation of area being treated. Contact with skin, eyes, or clothing should also be avoided. Wash thoroughly after using. Avoid contamination of food, utensils, and food preparation areas. Should illness occur, get prompt medical aid.

FIRST AID INSTRUCTIONS: If Inhaled: Remove victim to fresh air. Apply artificial respiration if indicated. If Swallowed: Call a physician or Poison Control Center. Induce vomiting by touching back of throat with finger. Repeat until vomit fluid is clear. Do not induce vomiting or give anything by mouth to an unconscious person. If on Skin: Remove contaminated clothing and wash affected areas with soap and water. If irritation persists, seek medical attention. If in Eyes: Flush eyes with plenty of water. Call a physician immediately. Atropine Sulfate is antidotal.

ENVIRONMENTAL HAZARDS: This product is toxic to fish and birds. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on the label.

PHYSICAL OR CHEMICAL HAZARDS: Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 54 deg C

may cause bursting.

Do not use this product in or on electrical equipment due to the possibility of shock hazard.

DISPOSAL: When container is empty, press valve to release all pressure. Dispose of empty container in accordance with provincial requirements. For information on the disposal of unused, unwanted product and the cleanup of spills, contact the regional Office of Conservation, Environment Canada.

NOTICE TO USER: This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.
