WEED-B-GON KILLEX LOCK-N-SPRAY:

Controls over 50 varieties of broadleaf weeds in lawns, including Dandelions, Plantains, Chickweed, Clover, Bedstraw, Black Medick (Yellow Clover), English Daisy, Curled Dock, Heal-all, Ground Ivy

(Creeping Charlie), Knotweed, Ragweed, Shepherd's-Purse, Poison Ivy, Devil's Paintbrush and Buttercup.

LOCK-N-SPRAY SYSTEM:

- . Mixes product automatically and accurately - No measuring or mixing required.
- . Locking closure in container prevents spills or leaks.
- . Simply connect sprayer to hose, attach and lock container to sprayer, turn on water and spray.
- . Container automatically reseals itself when disconnected from hose.

DIAGRAMS

APPLICATION DIRECTIONS:

Apply in late spring or early fall on actively growing weeds. Avoid application during long, dry periods. Do not apply when rain is expected and do not water lawn within 24 hours of spraying. Product acts within a few days and weeds gradually die. Grass fills in as weeds disappear.

DIRECTIONS FOR LOCK-N-SPRAY SYSTEM:

To use the LOCK-N-SPRAY System:

1. With tap turned off, connect sprayer to garden hose.
(Diagram)
2. Peel off sticker from top of LOCK-N-SPRAY container.
3. With front label facing you, attach container to sprayer:
(Diagram)
 - (i) Push up to seal container firmly against sprayer.
 - (ii) Twist container to "LOCK" position.
4. Turn on water.
5. Rotate nozzle down for soil and lawn application. (Diagram)
6. Squeeze (colour) trigger to begin spraying, release trigger to stop.
7. When finished, turn the container to unlock and remove from sprayer.

8. Flush sprayer with water, squeezing and releasing the trigger in short bursts (2 or 3 times).
9. Turn off water, squeeze trigger to release pressure. Disconnect sprayer from hose. Container automatically reseals itself.

PRECAUTIONS:

KEEP OUT OF REACH OF CHILDREN.

Avoid contacting skin, eyes, and clothing.

Wash hands after using.

Do not use on bent grass varieties (golf greens).

Avoid spraying desirable plants such as ornamentals, flowers, shrubs, vegetable and fruit crops, and avoid spray drift onto these susceptible plants.

Do not apply to newly seeded lawns until after third mowing. Do not store near seeds, fertilizers, insecticides or fungicides.

Keep from freezing.

Protective Clothing:

Wear long-sleeved shirt, long pants, socks, shoes and chemical resistant (e.g. rubber) gloves.

Operator Use Precautions:

Rinse gloves before removal.

Wash hands before eating, drinking, using tobacco or using the toilet.

If pesticide penetrates clothing, remove immediately; then wash thoroughly and put on clean clothing.

Remove clothing and launder separately before reuse, and promptly and thoroughly wash hands and exposed skin with soap and water, then shower.

Re-use gloves for pesticide application only.

Re-entry Interval:

Do not allow people (other than the applicator) or pets on the

treatment area during application. Do not enter treated areas until spray has thoroughly dried.

Maximum Application Frequency:

For good turf/lawn management, normally two applications per year per treatment site are adequate. This does not include spot treatments.

FIRST AID:

If on skin, remove contaminated clothing and wash skin with soap and water. If in eyes, flush with plenty of water for 15 minutes. Obtain medical attention. If swallowed, induce vomiting. Call doctor or Poison Control Centre if symptoms of poisoning occur.

DISPOSAL:

Do not re-use empty container. Wrap in newspaper and dispose of empty container with household garbage.

NOTICE TO BUYER:

Seller's guarantee shall be limited to the terms set out on the label and subject thereto, the buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product on that condition.
