Later's Bugban-C Ant Killer Spray

Ants are scavengers and as such they clean up the environment. They vary in size normally from 2 to 7 mm, but Carpenter Ants can be as large as 1 to 2 cm. Ants may be black, brown or red, they could be winged or wingless, they have narrow waists and their antennae are elbowed. In their search for food they will enter homes or climb trees to collect "honeydew" secreted by Aphids or Scale Insects. Carpenter Ants are black or reddish black with large jaws, and are among the largest ants that infest homes. They prefer moist, softer wood that has begun to decay but may also attack newly built structures. Carpenter Ants do not eat wood, they simply excavate it to create a nesting place. Piles of sawdust so produced often contain parts of ant bodies, and may be noticed spilling out of cracks in walls. You may also notice the swarming of winged ants. To locate nest(s), a faint rustling sound can be heard in quiet rooms (or listen at the wall with a rolled up magazine or

stethoscope). Carpenter ants are most active from 8:00 pm to 4:00 am. For severe infestations, it is advised to call a professional pest control applicator.

DIRECTIONS: Bugban-C Ant Killer Spray is Ready-to-Use. Adjust spray nozzle to give a coarse spray. Spray surfaces until wet. Do not use as a space spray. Remove pets and cover fish tanks before spraying. Do not spray near electrical outlets, switches, etc., because of possible shock hazard. Do not use in area where food may be exposed. Remove or cover all exposed food and cooking utensils before spraying. Thoroughly wash all surfaces that might contact food before re-use.

HOW TO USE: Apply this product where ants are found. Spray into cracks and crevices or through openings into wall voids where ants are present. Thoroughly treat areas such as behind sinks, stoves, refrigerators and around plumbing. Apply to ant trails around doors and windows or wherever these pests may gain entry. To prevent ants from entering the house, apply this product thoroughly under the bottom edge of the siding on the exterior of the house and indoors along the top of the sill in the crawl space.

TO CONTROL ANTS OUTDOORS: Use Later's Bugban-C Ant Killer Dust.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. Keep children and pets away from treated areas, at least until spray has dried. Avoid contact with eyes, skin and clothing. Avoid breathing vapors and spray mist. Wash thoroughly after handling. Do not spray near open flame.

ENVIRONMENTAL HAZARDS: Keep away from food, feed and domestic water supplies. Do not spray ornamental or edible plants. Do not use in animal buildings or poultry houses.

FIRST AID: IF SWALLOWED, do not induce vomiting. Contact a doctor or poison control centre at once. IF IN EYES, flush with water for 15 minutes and get medical attention. IF ON SKIN, remove contaminated clothing and wash skin thoroughly with soap and water.

TOXICOLOGICAL INFORMATION: Chlorpyrifos is a chlorinesterase inhibitor. Atropine by injection only is an antidote.

STORAGE: Keep product in original container. Store in a cool, dry place away from food.

DISPOSAL: Do not re-use container. Wrap container in newspaper and dispose of in regular garbage.

Seller's guarantee shall be limited to the terms set out on the label and subject thereto, the buyer assumes the risk to persons or property arising from the use of this product and accepts the product on that condition.
