SANEX should be an integral part of any carpet maintenance system. Routine application will not only clean the carpets, but

sanitize and deodorize for a clean, longer lasting carpet. **SANEX** is a low foaming carpet shampoo formula for use with extraction and carpet steam cleaning equipment. **SANEX** contains "twin-chain" quaternary ammonium compounds to reduce the growth of odour causing bacteria. **SANEX** is fortified to neutralize unpleasant odours. Formulated for use on commercial washable synthetic fibres. **(Not recommended for use on wool carpets).** **SANEX** effectively and economically lifts and removes greasy soil, resists resoiling, and utilizes "built-in" defoamers for more productive use. **SANEX** is a balanced formulation combining true odour counteractants, a non-ionic synthetic detergent, a quaternary ammonium compound, organic chelating agents and synergizing builders...for effective carpet cleaning, sanitizing and counteracting of odours when used as directed.

DIRECTIONS FOR USE:

TO CLEAN, SANITIZE AND DEODORIZE CARPETS

Steam Extraction: Vacuum carpet thoroughly. Mix 16 mL of **SANEX** per litre of water. Inject and extract as you would any steam cleaning shampoo.

Spin-bonnet (Bonnet Buff) Cleaning: Vacuum carpet thoroughly. Mix 32 mL of **SANEX** per litre of water. Spray on carpet at rate of 4.9 - 7.4 L/M² (alternate direction).

Heavy Spin Bonnet (Bonnet Buff) Cleaning: Vacuum carpet thoroughly. Mix 125ml of **SANEX** per litre of water. Spray on carpet at a rate of 4.9-7.4 L/M².

NOTE: Test colour fastness of carpet before use. Apply diluted cleaner to a small concealed spot, then rub with clean white cloth. If colour transfers to cloth or changes, a water base product should not be used. Not recommended for use on Stain-Resistant Nylon Carpets. Consult carpet manufacturer's warranty and maintenance instructions for proper use. After cleaning, set carpet pile in one direction with a stiff brush. Place aluminum foil under legs of furniture while carpet is drying. Over-wetting can cause shrinking of carpet. Manufacturer assumes no responsibility for over-wetting or misuse.

PRECAUTIONS:

Keep out of Reach of Children.

Danger - Corrosive to eyes.

Severe skin irritant. Do not get in eyes, on skin or clothing. Harmful or fatal if swallowed. Avoid contamination of food. Wear appropriate protective clothing when handling concentrate.

FIRST AID:

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse. If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician or a Poison Control Centre immediately.

TOXICOLOGICAL INFORMATION:

Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

NOTICE TO USER:

This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.

DISPOSAL:

1. Rinse the emptied container thoroughly and add the rinsing to the treatment site.
2. Follow provincial instructions for any required additional cleaning of the container prior to its disposal.
3. Make the empty container unsuitable for further use.
4. Dispose of the container in accordance with provincial requirements.
5. For information on the disposal of unused, unwanted product and the cleanup of spills, contact the Provincial Regulatory Agency or the Manufacturer.
