KEMCIDE Flying Insect Killer is designed for use in the Cam Spring Action Type Automatic Dispense. The automatic dispenser releases a metered dos of 55 mg of insecticide every 15 minutes. Each can contains enough product to protect and area of at least 170 m3 of free flow air for up to 30 days.

DIRECTIONS: Remove protective cap from top of can and insert can into special automatic dispenser. Place dispenser 2-3 metres above floor at a point where air flow will carry insecticide throughout the area. Do not install directly over food or food packaging surfaces.

PRECAUTIONS: CONTENTS UNDER PRESSURE. Container may explode if heated. Do not expose to temperature above 50'C. Do not spray neat open flame or spark. Do not puncture or incinerate. Do not contaminate food, feed or water. Avoid contact with skin and

inhalation of spray mist. Wash after using. Contents toxic to fish and birds. Do not install directly over polished, plastic or varnished surfaces. KEEP OUT OF REACH OF CHILDREN. Dispose of empty container with regular garbage.

NOTICE TO USER: This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.

LIMITATIONS OF WARRANTY: Seller's guarantee shall be limited to the terms set out on the label and subject thereto. The buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product on that condition.

This label transcript service is offered by the Pest Management Regulatory Agency to provide efficient searching for label information. This service and this information do not replace the official hard-copy label.
