#### DIRECTIONS FOR USE

SUPERIOR OIL CONCENTRATE is an emulsifiable oil product for use as a dormant or delayed spray for the control of European red mite on apples, pears, peaches and plums.

Apples and Pears: To control European red mite, apply in the delayed dormant spray (green tip up to 1 cm green).

Peaches and Plums: To control European red mite, apply in green tip stage for plums and dormant or pre-bloom (1 cm green to first pink) for peaches.

Use as a 0.5% mixture in water (5 litres of SUPERIOR OIL CONCENTRATE per 1000 Litres of water).

#### MIXING INSTRUCTIONS

Before mixing, be certain the spray tank is clean. To mix, add water to the level of the agitator shaft. Start the agitation and add the required amount of SUPERIOR OIL CONCENTRATE. The mixture should turn white indicating good emulsification. After mixing,

continue filling tank and do not stop agitation until contents have been sprayed out.

#### COMPATIBILITY

SUPERIOR OIL CONCENTRATE is compatible with Ferbam for use on peaches in a dormant spray. Fill the tank one-quarter full of water, add the Ferbam slowly with the agitator running, resume filling the tank with water before adding SUPERIOR OIL CONCENTRATE.

SUPERIOR OIL CONCENTRATE is compatible with the following apple scab fungicides: Dodine, benomyl, metiram and thiophante-methyl. Compatibility with other insecticides and fungicides has not been fully evaluated. Thus other mixtures are not recommended.

For European Red Mite Control on Fruit Trees: Do not use if emulsion breaks. Avoid spraying during or just prior to freezing weather. While thorough coverage is important avoid over spraying. Do not apply later than indicated for each crop. Do not use on crops, plants, or trees other than those on the label.

#### FIRST AID: DANGER

This product contains petroleum distillate, therefore, if swallowed, DO NOT CAUSE VOMITING. If patient is unconscious, give air. Obtain medical attention immediately or contact a poison control centre.

#### PRECAUTIONS

Avoid spraying during or just prior to freezing weather. While thorough coverage is important, avoid over spraying. Do not apply later than indicated for each crop. Do not use on crops, plants or trees other than those on the label. Keep product away from fire, open flame, lighted electric bulbs and other sources of heat.

Do not breathe spray mist. Do not contaminate food or feed. Do not use if emulsion breaks. Keep out of the reach of children.

#### DISPOSAL

1. Rinse the emptied container thoroughly and add the rinsings to the spray mixture in the tank.
2. Follow provincial instructions for any required additional cleaning of the container prior to its disposal.
3. Make the empty container unsuitable for further use.
4. Dispose of the container in accordance with provincial

requirements.

5. For information on the disposal of unused, unwanted product and the cleanup of spills, contact the regional office of Environmental Protection, Environment Canada.

NOTICE TO USER: This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.

NOTICE TO BUYER: Seller's guarantee shall be limited to the terms set out on the label and subject thereto, the buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product on that condition.
